Mike Johanns
Governor

December 14, 1999

Members of the Legislature
Citizens of the State of Nebraska

It is my pleasure to submit Nebraska's Comprehensive Annual Financial Report for fiscal year 1999.

This report demonstrates the fiscal control and integrity which has been one of the principal objectives of my administration. It also demonstrates the fiscal strength and stability of the Nebraska economy, as evidenced by the recent and projected gains in employment, personal income and retail sales.

During the past year, the Legislature acted on several of my initiatives dealing with property tax relief, education and technology infrastructure. These initiatives will provide significant benefits to the citizens of Nebraska. The letter from the Department of Administrative Services discusses these initiatives in more detail.

Our ability to manage our fiscal affairs and provide full disclosure of the State's fiscal condition is demonstrated by the unqualified audit opinion that follows. I am also proud that the 1998 report submitted to the Government Finance Officers Association was awarded the prestigious Certificate of Achievement for Excellence in Financial Reporting for the eighth consecutive year. I am confident the 1999 report will also receive this distinction.

I would like to thank the Department of Administrative Services for its commitment in dealing with the complex accounting issues involved in preparing this report, as well as all the state agencies for their cooperation in gathering the necessary information.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Johanns".

December 13, 1999

The Honorable Mike Johanns, Governor
Members of the Legislature
Citizens of the State of Nebraska

We are pleased to present the Comprehensive Annual Financial Report of the State of Nebraska for the fiscal year ended June 30, 1999. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the Department of Administrative Services, Accounting Division. We are confident the data presented is accurate in all material respects, is presented in a manner that fairly sets forth the financial position and results of operations of the state as measured by the financial activity of its various funds, and that all disclosures necessary to enable the reader to gain an understanding of the state's financial position and results of operations have been included.

This report has been prepared in accordance with generally accepted accounting principles (GAAP) for governments as established by the Governmental Accounting Standards Board (GASB).

The Comprehensive Annual Financial Report is presented in three sections as follows:

- The Introductory Section includes this transmittal letter, the state's organizational chart and a list of principal officials.
- The Financial Section includes the auditors' report, general purpose financial statements, and the combining and individual fund and account group financial statements and schedules.
- The Statistical Section includes selected financial and demographic information, generally presented on a multi-year basis.

The financial reporting entity includes all funds and account groups of the state as legally defined, as well as all of its component units. Component units are legally separate entities for which the state is financially accountable. Note 1B of the Notes to the Financial Statements provides a more complete description of the state's reporting entity. The state provides a full range of services including: the construction and maintenance of highways and infrastructure, education, social and health services, public safety, conservation of natural resources, economic development, and recreation facilities and development.

ECONOMIC CONDITION AND OUTLOOK

Revenues and Expenditures

A major factor in all financial and budget decisions will be the amount of revenue available to finance funding requests and initiatives. Current projections anticipate net general fund cash receipts of \$2.342 billion during the fiscal year ending June 30, 2000, a 10.3 percent increase over 1999 actual receipts. A significant portion of this revenue is dependent on individual income tax and sales and use tax, both of which are directly related to personal income. Through the end of November, net general fund receipts were ahead of projections by \$16.0 million.

During the last Legislative session, several appropriation bills were passed and signed by the Governor that will bring the total State General Fund cash basis appropriation for fiscal year 2000 to \$2.33 billion (up 4.3 percent from 1999). The total biennium appropriation is projected to result in a June 30, 2001, reserve amount of \$204.3 million or 4.2 percent. This reserve amount is within the 3 percent to 7 percent reserve required by the constitution and state statutes.

Economy

The outlook by the Bureau of Business Research at the University of Nebraska-Lincoln for 1999 and 2000 calls for solid economic advances by the Nebraska economy. The Bureau's latest report for December 1999 predicts that employment, personal income and retail sales will all continue to show positive growth.

Employment grew at a rate of 2.1 percent in 1998. The 1999 and 2000 growth rates are expected to average around 1.9 percent. To the extent that employment gains are the result of conversions from full-time to part-time jobs or additions of part-time jobs, the magnitude of the gains may be somewhat less.

Non-farm personal income grew solidly in 1998, reflecting strength in wages and salaries. Gains are expected to be about 5 percent for 1999 and 2000. Following adjustment for inflation, real gains in non-farm personal income are predicted to be above 3 percent for both years.

Both motor vehicle sales and non-motor vehicle sales grew at steady rates in 1998. The result was an increase of over 6 percent from 1997. In response to continued strength in the Nebraska economy, retail sales should continue growing over five percent for 1999 and 2000.

	1995	1996	1997	1998	1999	2000
Employment:						
Annual Totals	816,367	851,515	872,145	890,144	907,083	924,141
Growth Rates	2.5%	2.2%	2.4%	2.1%	1.9%	1.9%
Non-farm Personal Income:						
Annual Totals (in millions \$)	33,238	35,280	37,588	39,514	41,475	43,571
Growth Rates	5.8%	6.1%	6.5%	5.1%	5.0%	5.1%
Net Taxable Retail Sales						
Growth Rates:						
Total	4.2%	6.2%	5.7%	6.7%	5.7%	5.1%
Motor Vehicle Sales	3.8%	9.8%	6.6%	9.6%	7.0%	4.8%
Non-motor Vehicle Sales	4.3%	5.7%	5.6%	6.3%	5.5%	5.2%

MAJOR INITIATIVES

Property Tax Relief

The Relief to Property Taxpayers Act provided \$30.0 million of increased state aid to the Community Colleges for fiscal year 2000. It is expected that property taxes for those programs will be reduced by the same amount. The Act also included \$35.0 million in credits to property taxpayers in fiscal year 2001 and \$35.0 million in increased aid to schools in fiscal year 2002.

An additional piece of legislation was enacted that increases the number of individuals eligible for homestead exemption. This legislation also increases the amount of property tax relief by changing the definition of disability and adjusting income limitations to qualify for a homestead exemption.

Education

Several pieces of legislation were enacted to provide funding for public education. These include stabilizing state aid to education, increasing General Fund appropriations for special education, funding salary increases at the University of Nebraska and State Colleges, and providing funding for technology infrastructure improvements for public schools through Educational Service Units.

Public Safety

Legislation was enacted to provide funding for settlement of wage contract impasse with the law enforcement bargaining unit and provides resources to aid in recruitment and retention of law enforcement professionals and correctional officers. Other legislation provides staffing and startup costs for new correctional facilities and increases penalties for certain criminal offences.

Health and Human Services

Several pieces of legislation were enacted to enhance health care and child support services provided to citizens of the state. This legislation included creating a child support disbursement unit to implement a centralized collection and disbursement unit for child support payments, as required by federal law, and enhanced services for juveniles, elderly, child welfare and mental health patients.

Technology Infrastructure

Legislation was enacted to provide funding to replace current satellite space for Nebraska Educational Telecommunications Commission and to digitize the signal to comply with federal requirements. Additional legislation provides funding to hire a project manager to perform the critical design review to replace the state's human resource and financial management information systems.

FINANCIAL INFORMATION

Internal Controls

Management of the state is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the state are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgeting Controls

Budgetary control is maintained through legislative appropriation and the executive branch allotment process. A budget is required to be adopted through passage of appropriation bills by the Legislature. The appropriated funds are allocated by program and are controlled by the executive branch through an allotment process. This process allocates the appropriation by program and fund type. The Legislature may also enact a supplemental appropriation bill and other appropriation bills, as it deems necessary.

State law does not require encumbrance accounting, although, there is a provision in the law for agencies to encumber items at the end of one biennium to carry over the encumbered amounts to the next biennium. Because the encumbrance process is not mandatory, the state does not record encumbrances on its financial statements.

The state's budgetary process is explained in detail in Note 2 of the Notes to the Financial Statements.

General Government Functions

General governmental activities are accounted for in three governmental fund types. These fund types are the general, special revenue and capital projects funds. The debt service fund is not utilized because all outstanding revenue bonds have been paid off. Revenue and other financing sources for general governmental functions totaled \$4.42 billion for the fiscal year ending June 30, 1999, an increase of 5.40 percent over revenues for the fiscal year ending June 30, 1998.

The state's most significant sources of revenue are its retail sales tax, individual income tax and federal grants and contracts.

As of June 30, 1999, the following tax rates were in effect:

TYPE	PERCENT	DATE OF LAST CHANGE
Sales and Use Tax	4.5%	July 1, 1998
Corporate Income Tax	5.58% and 7.81%	January 1, 1991
Individual Income Tax	2.51% to 6.68%	January 1, 1997

The corporate income tax rate is comprised of two brackets that break at \$50,000 of taxable income. There are four individual income tax brackets that break at various amounts depending on filing status. Nebraska income is based on federal adjusted gross income minus a standard deduction or

itemized deductions and personal exemptions. A personal exemption credit replaces the deduction for personal exemptions. The personal exemption credit is \$88 for 1999. The credit is phased out as federal adjusted gross income increases for higher income taxpayers.

Revenue from various sources for fiscal year 1999 and the amount and percentage of increases and decreases in relation to the prior fiscal year are as follows (expressed in thousands):

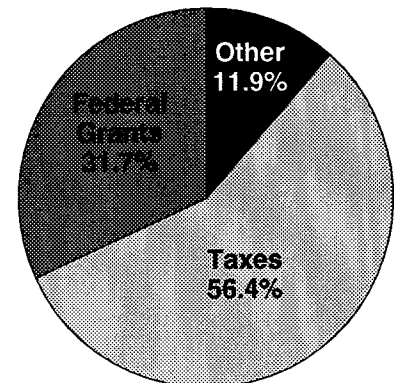

REVENUES AND OTHER FINANCING SOURCES	AMOUNT	PERCENT OF TOTAL	INCREASE (DECREASE) FROM 1998	PERCENT OF INCREASE (DECREASE)
Income Tax	\$ 1,199,499	27.12%	\$ 77,650	6.92 %
Sales and Use Tax	868,620	19.64	(41,817)	(4.59)%
Petroleum Tax	266,419	6.02	(3,342)	(1.24)%
Other Taxes	159,128	3.60	7,605	5.02 %
Federal Grants and Contracts	1,400,439	31.67	136,493	10.80 %
Licenses, Fees and Permits	154,352	3.49	8,224	5.63 %
Charges for Services	75,343	1.70	6,709	9.78 %
Investment Income	55,877	1.26	(21,440)	(27.73)%
Rents and Royalties	10,249	0.23	651	6.78 %
Other	109,442	2.47	40,871	59.60 %
Total Revenues	4,299,368	97.22	211,604	5.18 %
Other Financing Sources	122,820	2.78	15,010	13.92 %
Total Revenues and Other Financing Sources	\$ 4,422,188	100.00%	\$ 226,614	5.40 %

Changes in revenues are highlighted by:

- Income taxes increased by \$77.7 million or 6.92 percent. This increase is primarily attributable to increases in personal income during 1998 and 1999.
- Sales and use taxes decreased by \$41.8 million or 4.59 percent. This is due to the legislature reducing the sales tax rate by .5 percent during fiscal year 1999.
- Federal Grants and Contracts increased by \$136.5 million or 10.80 percent. This is mainly due to increases in aid payments in the Medicaid, Temporary Aid to Needy Families (TANF) and Child Care programs administered by the Health and Human Services System.
- Investment income decreased by \$21.4 million or 27.73 percent. This decrease is mainly attributed to a decrease in the average cash balances for the year.
- Other revenues increased by \$40.9 million or 59.60 percent due to aid payments made to and received from government-owned nursing homes under the Medical Assistance Program administered by the Health and Human Services System.

Expenditures and other financing uses for general government activities totaled \$4.45 billion for the fiscal year ending June 30, 1999, representing a 12.33 percent increase from 1998. General government expenditures by function for fiscal year 1999 and the amount and percentage of increases and decreases in relation to the prior fiscal year are as follows (expressed in thousands):

REVENUES – 1999

EXPENDITURES AND OTHER FINANCING USES	AMOUNT	PERCENT OF TOTAL	INCREASE (DECREASE) FROM 1998	PERCENT OF INCREASE (DECREASE)
Current:				
General Government	\$ 95,547	2.15%	\$ 3,049	3.30 %
Conservation of Natural Resources	82,049	1.84	8,412	11.42 %
Culture – Recreation	22,588	0.51	1,277	5.99 %
Economic Development and Assistance	74,672	1.68	3,432	4.82 %
Education	1,001,664	22.52	177,070	21.47 %
Health and Social Services	1,645,380	36.99	177,701	12.11 %
Public Safety	177,519	3.99	6,722	3.94 %
Regulation of Business and Professions	42,930	0.97	563	1.33 %
Transportation	658,429	14.80	57,679	9.60 %
Intergovernmental	107,443	2.42	12,602	13.29 %
Capital Projects	23,177	0.52	4,773	25.93 %
Debt Service	5,897	0.13	2,430	70.09 %
Total Expenditures	3,937,295	88.52	455,710	13.09 %
Other Financing Uses	510,407	11.48	32,369	6.77 %
Total Expenditures and Other Financing Uses	<u>\$ 4,447,702</u>	<u>100.00%</u>	<u>\$ 488,079</u>	12.33 %

Changes in expenditures were highlighted by:

- Education increased \$177.1 million or 21.47 percent due to increases in the amount of state aid provided to education and special education and regular inflationary increases in operating expenditures.
- Health and Social Services increased \$177.7 million or 12.11 percent. This is mainly due to increases in aid payments in the Medicaid, Temporary Aid to Needy Families (TANF) and Child Care programs administered by the Health and Human Services System.
- Transportation increased \$57.7 million or 9.60 percent. This increase is attributable to an accelerated program for highway construction.
- Capital Projects expenditures increased \$4.8 million or 25.93 percent mainly due to construction of new correctional facilities.

EXPENDITURES – 1999

Fund Conversion

The state's budgetary funds are grouped into the appropriate generic fund types to report the state's financial activity in conformance with GAAP. Approximately 500 budgetary funds have been grouped into the 60 individual funds that are included in the financial statements. Note 2 of the Notes to the Financial Statements includes a matrix that shows the perspective differences that result from this conversion.

General Fund Balance

The fund balance of the general fund decreased by \$132.5 million to a total of \$278.5 million at June 30, 1999. The cash and investment balance of the General Fund was \$430.7 million. Current cash flow projections place the June 30, 2000, cash and investment balance at approximately \$428 million.

Proprietary Operations

The state has two enterprise funds included in the financial statements that provide services for individuals and entities outside state government. These activities include the State Lottery Fund and the Excess Liability Fund. The lottery, which began activity in 1993, generated \$72.4 million of operating revenues and \$18.2 million of income before transfers for fiscal year 1999. The Excess Liability Fund provides liability coverage for certain health care providers. Operating revenues, which are primarily insurance premiums, amounted to \$.7 million. The retained earnings for this fund was \$32.4 million at June 30, 1999.

Several internal service funds provide a variety of services to state agencies. These include computer services, transportation services, telecommunications, printing, general services, building management, risk management and other services. The operating revenues for the internal service funds were \$193.9 million for fiscal year 1999. These funds ended the year with total retained earnings of \$57.0 million.

Retirement Systems

Total net assets of the state's pension trust funds reached \$5.2 billion. These are the assets of the three defined benefit plans (School, Judges and State Patrol plans) and two defined contribution plans (County and State Employees plans) that are administered by the state.

Debt Administration

Article XIII of the State Constitution prohibits the state from incurring debt in excess of one hundred thousand dollars. However, there is a provision in the constitution that permits the issuance of revenue bonds for: (1) construction of highways; and (2) construction of water conservation and management structures. At June 30, 1999, there was no outstanding debt for either of these purposes. The state can enter into capital lease and other financing contracts provided that the contracts include cancellation clauses if the Legislature does not appropriate funds to continue the lease or financing arrangement.

There is \$5.6 million of bonds payable by separate legal entities that have been blended into the financial activity of the state. These bonds do not represent a general obligation of the state and are secured by revenues from the building and equipment that the debt was incurred to purchase.

The constitution also authorizes the Board of Regents of the University of Nebraska, the Board of Trustees of the Nebraska State Colleges, and the State Board of Education to issue revenue bonds to construct, purchase, or remodel educational buildings and facilities. The payment of these bonds is generally made from revenue collected from use of the buildings and facilities. At June 30, 1999, \$60.6 million of bonds were outstanding.

The Legislature has authorized the creation of two financing authorities that are not subject to state constitutional restrictions on the incurrence of debt. These financing authorities were organized to assist in providing funds for the construction of capital improvement projects at the Colleges and Universities. At June 30, 1999, these authorities had \$104.1 million of bonds outstanding. Although the state has no legal responsibility for the debt of these financing authorities, they are considered part of the reporting entity.

Risk Management

The state does not insure a significant portion of its buildings or their contents against theft, fire or other risks. Workers' compensation and employee life, health and accident coverage is provided on a self-insurance basis. Commercial insurance coverage has been purchased for automobile liability, employee life and health coverage, and employees' errors or omissions. Note 14 of the Notes to the Financial Statements discusses the state's risk management activities in more detail.

Cash Management

All cash is required to be deposited in the State Treasury. With the assistance of the State Investment Officer, the State Treasurer pools all cash in one of two investment pools. The Short Term Investment Pool (STIP) is comprised of short-term instruments and the Medium Term Investment Pool (MTIP) is comprised of medium-term instruments. The MTIP is reflected as investments on the state's financial statements. Interest earnings are credited on a monthly basis to each fund that the Legislature has designated as eligible to earn interest. All interest earnings not credited to other funds are deposited in the General Fund.

At June 30, 1999, there was \$1,377.1 million invested in the STIP and MTIP. This was invested as follows: 57.2 percent in government securities; 24.2 percent in corporate bonds; 9.4 percent in commercial paper; 4.7 percent in money market funds, and 4.5 percent in certificates of deposit. For the fiscal year ending June 30, 1999, the average daily balance of \$1,412.6 million returned \$81.5 million, a 5.77 percent yield. This yield represents a decrease of .11 percent from 1998.

State law requires that all public funds deposited in banks be secured by the bank by maintaining, at all times, an aggregate amount of securities of at least 102 percent of the amount on deposit, less the \$100,000 insured by the Federal Deposit Insurance Corporation (FDIC). It is the state's policy to continually monitor the clearing and depository banks for compliance with this law.

General Fixed Assets

The general fixed assets of the state are those fixed assets used in performance of general governmental functions. They do not include infrastructure (roads, bridges, flood control projects, etc.) or fixed assets of proprietary funds and the colleges and universities.

At June 30, 1999, the general fixed assets of the state amounted to \$550.9 million. This amount represents the valuation of general fixed assets in accordance with GAAP and the state's capitalization policy as described in Note 1 of the Notes to the Financial Statements.

AUDITS

The firm of KPMG LLP has audited the general purpose financial statements and their report is included in the Financial Section of this report. The audit was conducted in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in the General Accounting Office's *Government Auditing Standards*. The required report on internal control and compliance with laws and regulations is included as

part of the statewide Single Audit report, which is issued under a separate cover.

The audit described above was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and the related U.S. Office of Management and Budget's Circular A-133.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Nebraska for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 1998. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR, whose contents conform to rigorous program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The State of Nebraska has received a Certificate of Achievement for the last eight consecutive years. We believe that our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

CONCLUSION

This report continues our commitment to comprehensive disclosure of the state's financial condition. We are committed to issuing reports that are informative and meet governmental accounting standards. Reports that meet these standards provide the reader with an opportunity to make more informed judgments about the government's financial position and results of operations.

The 1999 Comprehensive Annual Financial Report represents our commitment to this goal. We wish to express our appreciation to the Department of Administrative Services accounting staff and the budget and accounting staff throughout state government for their assistance in the preparation of this report.

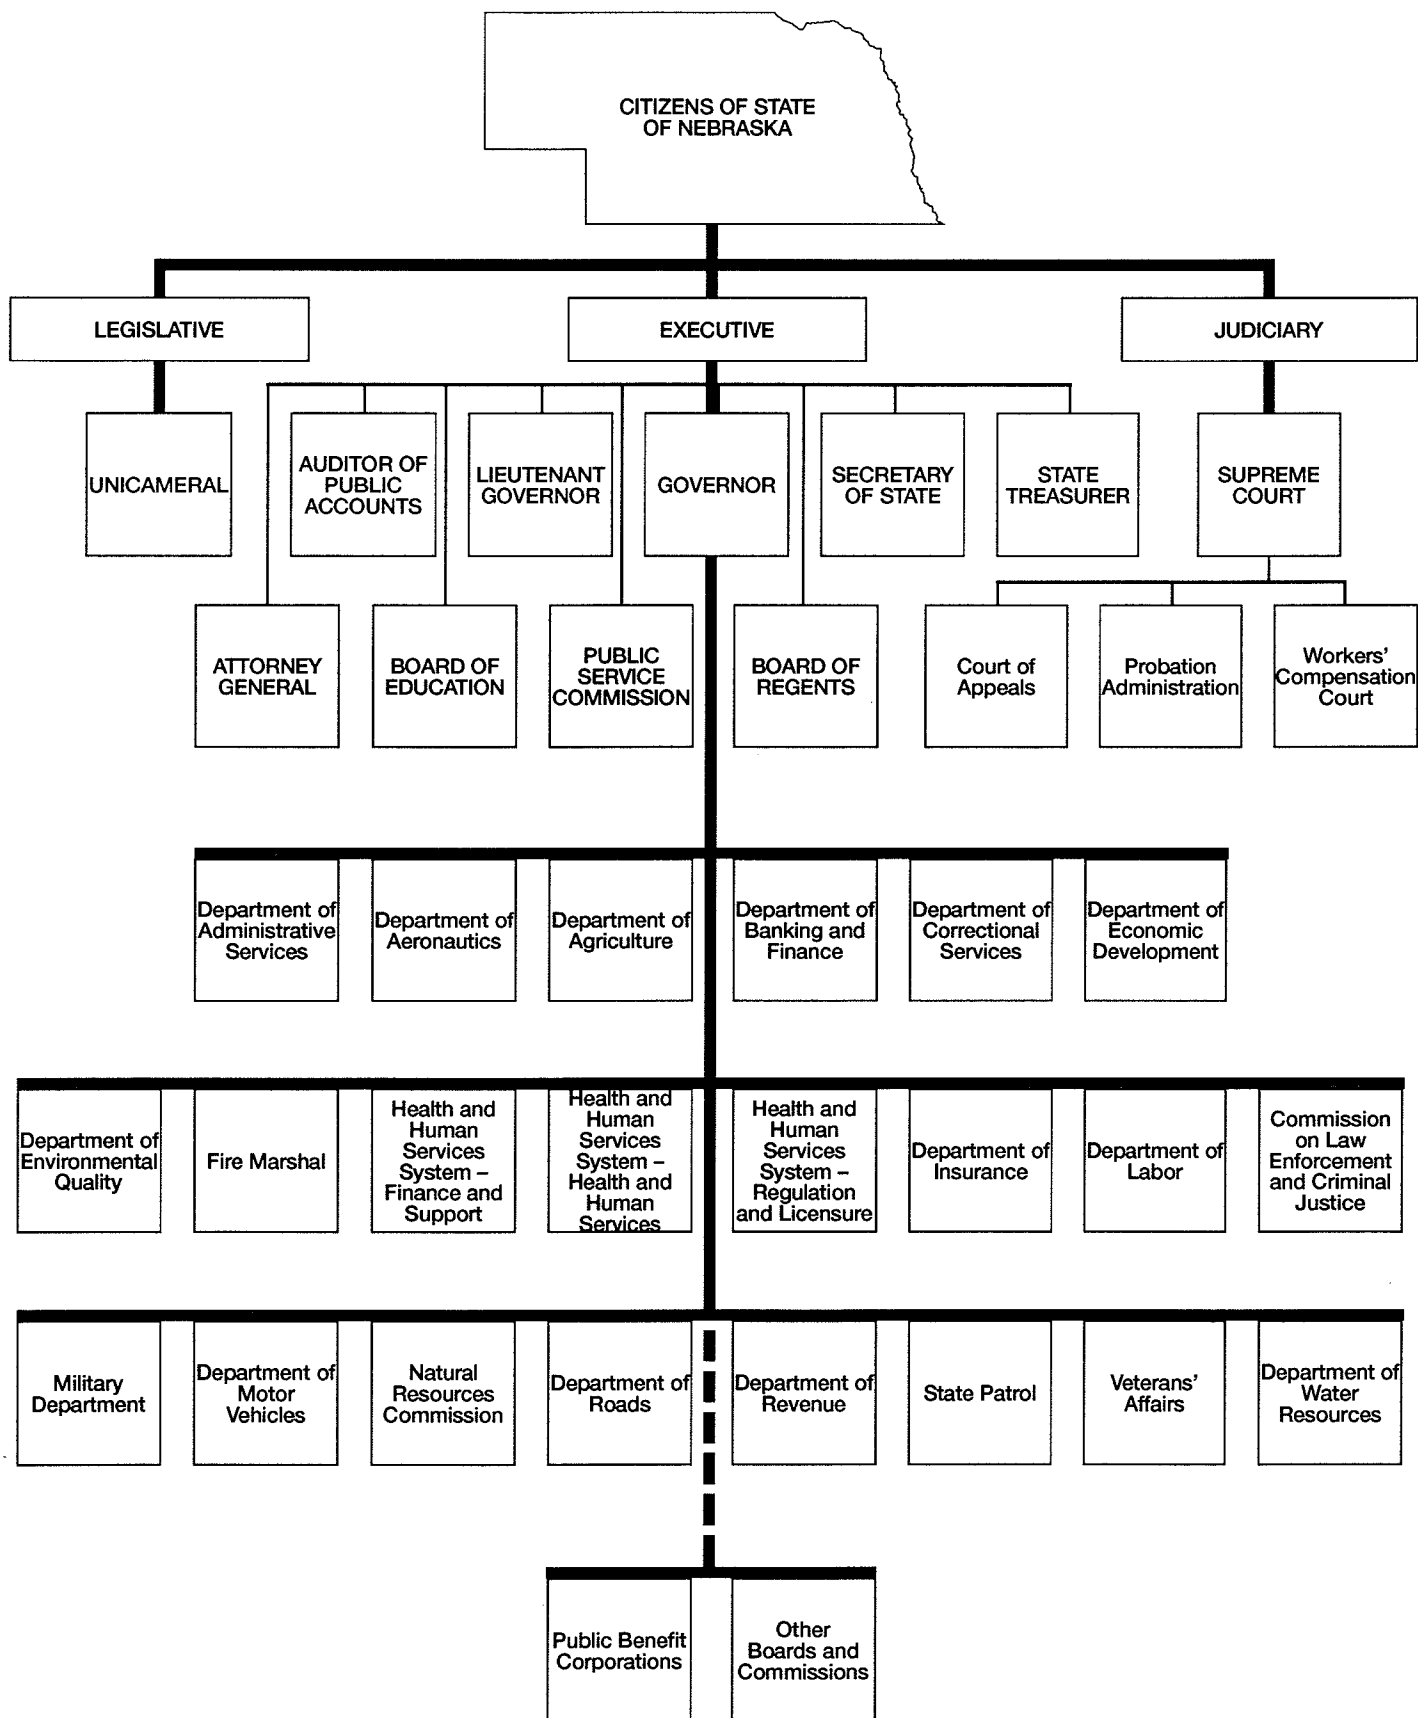

Your comments and suggestions are welcome.

Respectfully submitted,

A handwritten signature in cursive script, reading "Lori McClurg".

Administrative Services

ORGANIZATION CHART

Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of
Nebraska

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 1998

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

The Honorable Governor,
Members of the Legislature and
Citizens of the State of Nebraska:

We have audited the accompanying general purpose financial statements of the State of Nebraska as of and for the year ended June 30, 1999, as listed in the foregoing table of contents. These general purpose financial statements are the responsibility of the State of Nebraska's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit. We did not audit the financial statements of the University of Nebraska, Chadron State College, Peru State College, Wayne State College, the Nebraska State Lottery enterprise fund, and the State and County Employees' Retirement Plans, which represent all of the discretely presented component units; 25.0 percent and 99.1 percent, respectively, of the total assets and total operating revenues of the enterprise fund type; and 15.5 percent and 19.3 percent, respectively, of the total plan net assets and additions to plan net assets of the pension trust fund type. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion on the general purpose financial statements, insofar as it relates to the amounts included for the University of Nebraska, Chadron State College, Peru State College, Wayne State College, the Nebraska State Lottery enterprise fund, and the State and County Employees Retirement Plans, is based solely on the reports of the other auditors.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of other auditors, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the State of Nebraska as of June 30, 1999, and the results of its operations, the cash flows of its proprietary fund types and nonexpendable trust funds, and the changes in plan net assets of its pension trust funds for the year then ended in conformity with generally accepted accounting principles.

The schedules of funding progress and employer contributions and the year 2000 supplementary information on pages 53 and 56 are not a required part of the financial statements, but are supplementary information required by the Governmental Accounting Standards Board, and we did not audit and do not express an opinion on such information. We have applied to the schedules of funding progress and employer contributions certain limited procedures prescribed by professional standards, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the schedules. We were unable to apply certain of these limited procedures to the year 2000 information because of the nature of the subject matter underlying the disclosure requirements and because sufficiently specific criteria regarding the matters to be disclosed have not been established. In addition, we do not provide assurance that the State of Nebraska is or will become year 2000 compliant, that the State of Nebraska's year 2000 remediation efforts will be successful in whole or in part, or that parties with which the State of Nebraska does business are or will become year 2000 compliant.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 10, 1999, on our consideration of the State of Nebraska's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements of State of Nebraska taken as a whole. The combining and individual fund statements and schedules within the financial section as listed in the foregoing table of contents, which are also the responsibility of the management of the State of Nebraska, are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the State of Nebraska. Such additional information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, based on our audit and the reports of other auditors, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

KPMG LLP

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 1999

1. Summary of Significant Accounting Policies

A. Basis of Presentation. The accompanying general purpose financial statements of the State of Nebraska (the "State") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The financial statements of the Colleges and Universities, which are included as discretely presented component units, are based on the American Institute of Certified Public Accountants (AICPA) College Audit Guide model.

The general purpose financial statements have been prepared primarily from accounts maintained by the State Accounting Administrator of the Department of Administrative Services. Additional data has been derived from audited financial statements of certain entities and from reports prescribed by the Accounting Administrator and prepared by various State agencies and departments based on independent or subsidiary accounting systems maintained by them.

B. Reporting Entity. In determining its financial reporting entity, the State has considered all potential component units for which it is financially accountable, and other organizations which are fiscally dependent on the State, or the significance of their relationship with the State are such that exclusion would be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the State.

As required by generally accepted accounting principles, these financial statements present the State of Nebraska and its component units. The component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State. Complete financial statements of the individual component units that issue separate financial statements as noted below, can be obtained from their respective administrative offices.

Blended Component Units. The following component units are entities that are legally separate from the State, but are so intertwined with the State that they are, in substance, the same as the State.

They are reported as part of the State and blended into the appropriate funds.

Nebraska Educational Telecommunications Facilities Corporation. The Nebraska Educational Telecommunications Facilities Corporation (NETFC) is a nonprofit corporation formed by the State in 1991 to acquire access to a space satellite to be used by the Nebraska Educational Telecommunications Commission, a State agency. The eleven members of the Board of Commissioners of the Nebraska Educational Telecommunications Commission are appointed by the Governor and serve as the Board of Directors of the NETFC. Even though it is legally separate, the NETFC is reported as if it were part of the State because it provides services entirely to the State. The NETFC bonds were paid off during fiscal year 1999.

Nebraska State Building Corporation. The Nebraska State Building Corporation (NSBC) is a nonprofit corporation formed by the State in 1987 to finance the acquisition of property to be used by the State. Even though it is legally separate, the NSBC is reported as if it were part of the State because it provides services almost entirely to the State. It is reflected in a Special Revenue Fund and the Account Groups.

Discretely Presented Component Units. The following component units are entities that are legally separate from the State, but are financially accountable to the State, or their relationships with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. The component units are reported in a separate column to emphasize that they are legally separate from the State and governed by separate boards.

Nebraska State Colleges. The Board of Trustees of the Nebraska State Colleges governs Chadron State College, Peru State College and Wayne State College. The Board of Trustees is also the Board of Directors of the Nebraska State Colleges Facilities Corporation, a nonprofit corporation incorporated in 1983 to finance the repair or construction of buildings or the acquisition of equipment for use by the State Colleges. The Board of Trustees consists of the Commissioner of Education and six members appointed by the Governor. Audit reports have been issued under separate cover.

University of Nebraska. The University of Nebraska consists of the following campuses: University of Nebraska – Lincoln, University of

Nebraska at Omaha, University of Nebraska at Kearney, and University of Nebraska Medical Center. The University of Nebraska is governed by an elected eight-member Board of Regents. The Board of Regents is also the Board of Directors of the University of Nebraska Facilities Corporation, a nonprofit corporation organized by the Board of Regents in 1930 to finance buildings and hold them in trust for the University of Nebraska. Audit reports have been issued under separate cover.

The colleges and universities are funded through State appropriations, tuition, federal grants, and private donations and grants.

Related Organizations. The State's officials are responsible for appointing members of boards of other organizations, but the State's accountability for these organizations does not extend beyond making these appointments. The Governor appoints the boards of the following organizations: Nebraska Educational Facilities Authority, Nebraska Investment Finance Authority, Research and Development Authority, and Wyuka Cemetery.

C. Fund Structure. The State's accounts are maintained in accordance with the principles of fund accounting to insure compliance with limitations and restrictions placed on the use of resources available to it. Under fund accounting, individual funds are established for the purpose of carrying on activities or attaining objectives in accordance with specific regulations, restrictions, or limitations. Each individual fund is a self-balancing set of accounts recording cash and other financial resources, together with liabilities and residual equities or balances, and changes therein. In the general purpose financial statements, however, funds that have similar characteristics have been combined into generic fund types as required by GAAP. These generic fund types differ from the State's budgetary funds that are described in Note 2. A brief description of these fund types and account groups used by the State and the categories into which they are grouped follows:

Governmental Funds. Transactions related to resources received and used for those services traditionally provided by a state government. Governmental funds include:

General Fund. Reflects transactions related to resources received and used for those services traditionally provided by a state government, which are not accounted for in any other fund.

Special Revenue Funds. Reflect transactions related to resources received and used for restricted or specific purposes.

Capital Projects Fund. Reflects transactions related to resources received and used for the acquisition, construction, or improvement of permanent facilities.

Proprietary Funds. Transactions related to activities similar to those found in the private sector. Proprietary funds include:

Enterprise Funds. Reflect transactions used to account for those operations that are financed and operated in a manner similar to private business or where the governing body has decided that the determination of revenues earned, expenses incurred and/or net income is necessary for management accountability.

Internal Service Funds. Reflect transactions used to account for centrally operated services and centrally procured commodities that are provided to other State departments and agencies and other governmental units of the State. The services and commodities are charged to recipient agencies on a cost reimbursement basis.

Fiduciary Funds. Transactions related to assets held by the State in a trust or agency capacity. The State's fiduciary funds include Pension Trust, Nonexpendable Trust, Expendable Trust, and Agency funds as follows:

Pension Trust Funds. Reflect the transactions, assets, liabilities, and fund equities of State retirement systems.

Nonexpendable Trust Funds. Reflect the transactions, assets, liabilities, and fund equity of trusts whose principal must be maintained intact and whose income is used to fund the activity.

Expendable Trust Funds. Reflect the transactions, assets, liabilities, and fund equity of trusts whose principal and income may be used to fund the activity.

Agency Funds. Reflect amounts held by the State for others.

Account Groups. The Account Groups are maintained to account for general long-term debt and fixed assets not accounted for in other funds of the State.

General Fixed Assets Account Group. Used to account for general fixed assets of the State exclusive of assets held by the proprietary funds and component units.

General Long-Term Debt Account Group. Used to account for long-term obligations of the State including bonds payable, obligations

under lease purchase agreements, claims, obligations under other financing arrangements, and compensated absences exclusive of liabilities of the proprietary funds, certain trust funds, and component units.

College and University Funds. The Component Units include College and University Funds that are legally separate from the State but are considered part of the reporting entity. The College and University Funds reflect transactions related to resources received and used in the operation of the State's institutions of higher education and related medical teaching hospital. The College and University Funds include:

Current Funds, which account for unrestricted funds over which the governing boards retain full control in achieving the institutions' purposes and restricted funds that may be utilized in accordance with externally restricted purposes.

Loan, Endowment, and Agency funds which account for assets in which the colleges and universities act in a fiduciary capacity.

Plant Funds that account for institutional property acquisition, renewal, replacement, and debt service.

D. Basis of Accounting. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds, nonexpendable trust funds, and pension trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

All governmental fund types, expendable trust funds, and agency funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the

amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Major revenues that are determined to be susceptible to accrual include taxpayer-assessed tax revenues, unemployment compensation taxes, federal grants-in-aid, charges for services, and investment income. All other taxes are recognized when received. Federal grants collected on a reimbursement basis are recognized as revenue when reimbursable expenditures are made. Revenues collected on an advance basis, including certain federal grant revenue, to which the State does not yet have legal entitlement, are not recognized as revenue until the related expenditures are incurred. Generally, the State considers a one-year availability period for revenue recognition.

Expenditures are recorded when the related fund liability is incurred. Exceptions to the modified accrual expenditure recognition criteria include principal and interest on general long-term indebtedness which are recognized when due.

Proprietary fund types, pension trust funds, and nonexpendable trust funds utilize the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Lottery Fund instant ticket revenue is recognized when tickets are sold to the retailer and on-line revenue is recognized after the drawing is completed for the respective wagers. Lottery Fund prize expense is recognized in the same period that ticket revenue is recognized based on the predetermined prize structure for each game.

In reporting the financial activity of its proprietary funds, the State applies all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

The College and University Funds are reported on the accrual basis of accounting except that depreciation related to plant fund assets is not recorded and revenues and expenditures of an academic term encompassing more than one fiscal year are reported solely in the fiscal year in which the program is predominately conducted.

E. Cash and Cash Equivalents. In addition to bank accounts and petty cash, this classification includes all short-term investments such as certificates of deposit, repurchase agreements, and U.S. treasury bills having original maturities (remaining time to

maturity at acquisition) of three months or less. These investments are stated at cost, which at June 30, 1999, approximated market. Banks pledge collateral, as required by law, to guarantee State funds held in time and demand deposits.

F. Cash on Deposit with Fiscal Agents. Assets held by the trustees for the Nebraska Educational Telecommunications Facilities Corporation, the Nebraska State Building Corporation, the State Revolving Fund, and the Master Lease Purchase Program are reflected as cash on deposit with fiscal agents. Proceeds of College and University Revenue Bond issuances held in interest bearing accounts, awaiting disbursement, are also recorded as cash on deposit with fiscal agents in the Component Units column.

G. Investments. Investments as reported on the combined balance sheet include long-term investments. Law or other legal instruments may restrict these investments. All investments of the State and its component units are stated at fair value based on quoted market prices.

H. Receivables. Receivables are stated net of estimated allowances for uncollectible amounts, which are determined based upon past collection experience and current economic conditions.

I. Inventories. Inventories of materials and supplies are determined by both physical counts and through perpetual inventory systems. Governmental Fund inventories are recorded as expenditures when purchased, with the exception of the Highway and Health and Social Services Special Revenue Funds. The Highway Fund and the Health and Social Services Fund inventories are valued at average cost. Proprietary Funds' and College and University Funds' valuation method is primarily at the lower of cost (first-in, first-out) or market.

Food stamps and commodities on hand at June 30, 1999 are reflected as inventories, offset by a like amount of deferred revenue, in the Federal Special Revenue Fund. Food stamp inventory is reported at face value and commodities are reported at fair values established by the federal government at the date received. The amounts of food stamps and commodities distributed during the year, which approximated \$74,379,000 and \$6,729,000, respectively, are reflected as revenues and expenditures of the Special Revenue Funds.

J. Fixed Assets. General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. All fixed assets are valued at cost where historical records are available and at

estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received.

At June 30, 1999, buildings were valued at \$308,227,000. Of this total, \$207,883,000 was valued at estimated historical cost and \$100,394,000 was valued at actual historical cost. The estimate of historical cost is based on appraised values as of October 31, 1986, indexed to date of acquisition. All buildings acquired after October 31, 1986, have been valued at historical cost.

Fixed assets do not include infrastructure such as highways, bridges and lighting systems, as these assets are immovable and of value only to the government. Art objects, collections of historical material and other artifacts, although considered valuable are not assigned a value for financial statement purposes. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Generally, equipment that has a cost in excess of \$5,000 at the date of acquisition and has an expected useful life of two or more years is capitalized. Substantially all initial building costs, land and land improvements costing in excess of \$50,000 are capitalized. Building improvements and renovations in excess of \$50,000 are capitalized if a substantial portion of the life of the asset has expired and if the useful life of the asset has been extended as a result of the renovation or improvement.

Assets in the General Fixed Assets Account Group and the College and University Funds are not depreciated. Depreciation of machinery, equipment and buildings in the proprietary fund types is recorded using the straight-line method.

In proprietary funds the following estimated useful lives are used to compute depreciation:

Buildings	40 years
Equipment	3-10 years

K. Compensated Employee Absences. All permanent employees earn sick and annual leave. Temporary and intermittent employees and Board and Commission members are not eligible for paid leave.

State employees accrue vested annual leave at a variable rate based on years of service. Generally, accrued annual leave cannot exceed 35 days at the end of a calendar year. It is the State's policy to liquidate unpaid annual leave at June 30 from future sources rather than currently available expendable resources. Accordingly, governmental and expendable trust funds recognize annual leave when it is paid. A long-term liability of \$43,017,000 for the accumulated annual leave in governmental and expendable trust funds has been recorded in the

General Long-Term Debt Account Group as of June 30, 1999.

Employees accrue sick leave at a variable rate based on years of service. In general, accrued sick leave cannot exceed 180 days. Sick leave is not vested except upon death or upon reaching the retirement eligibility age of 55, at which time, the State is liable for 25 percent of the employee's accumulated sick leave. It is the State's policy to liquidate vested sick leave at June 30 from future resources rather than currently available expendable resources. Accordingly, governmental and expendable trust funds recognize sick leave when it is paid. A long-term liability of \$34,450,000 for accumulated sick leave expected to be paid as termination payments in governmental and expendable trust funds has been recorded in the General Long-Term Debt Account Group as of June 30, 1999.

Some State agencies permit employees to accumulate compensatory leave rather than paying overtime. It is the State's policy to liquidate compensatory leave at June 30 from future resources rather than currently available expendable resources. Accordingly, governmental and expendable trust funds recognize compensatory leave when it is paid. A long-term liability of \$2,378,000 for the vested portion of the accumulated compensatory leave in governmental and expendable trust funds has been recorded in the General Long-Term Debt Account Group as of June 30, 1999.

All proprietary and similar trust funds recognize the expense and accrued liability when vacation and compensatory leave is earned or when sick leave is expected to be paid as termination payments.

The College and University Funds recognize the expense and accrued liability when sick and vacation leave is earned.

L. Fund Equity Reserves. Reservations of fund balance are established to identify the existence of assets that are not available for subsequent year appropriations (i.e., prepaid items and inventories) or have been legally segregated for specific purposes. Assets of legally restricted budgetary funds are an example of this type of reservation. Reservations of fund balance are also established for assets that are not current in nature, such as long-term loans receivable. Reservations of retained earnings are established for assets that are legally restricted for specific purposes and therefore not available to fund current operations. The Enterprise Fund has reserved retained earnings for long-term deposits with the Multi-State Lottery.

M. Interfund Transactions. Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimburse-

ments to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions are reported as transfers. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

N. Totals - Memorandum Only. The "Totals - Memorandum Only" column represents an aggregation of individual account balances. The column is presented for overview informational purposes and does not present consolidated financial information since interfund balances and transactions have not been eliminated.

O. Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at fiscal year-end and revenues and expenditures during the reporting period. Actual results could differ from those estimates.

2. Budgetary Process

The State's biennial budget cycle ends on June 30 of the odd-numbered years. By September 15, prior to a biennium, all State agencies, including colleges and universities, must submit their budget requests for the biennium beginning the following July 1. The requests are submitted on forms that show estimated funding requirements by programs, subprograms, and activities. The Governor reviews the agency requests, establishes priorities, and presents the Legislature with one or more pieces of legislation covering the biennium. The Legislature holds hearings on the Governor's proposed budget, adopts changes and presents final legislation to the Governor. The Governor can either: a) approve the appropriation bill in its entirety, b) veto the bill, or c) line item veto certain sections of the bill. Any vetoed bill or line item can be overridden by a three-fifths majority of the Legislature.

The approved appropriations set spending limits by fund type for programs within each agency. These limits may include up to five budgetary fund types. Thus, the legal level of control is fund type within program within agency. The central accounting system maintains this control. A separate publication titled "Annual Budgetary Report" shows the detail of this legal level of control. This publication is available from the Department of Administrative Services, Accounting Division.

Appropriations are made for each fiscal year of the biennium; balances at the end of the first fiscal year are carried over into the second fiscal year, unless directed otherwise by the Legislature. For most appropriations, balances lapse at the end of the biennium.

The budgetary fund types used by the State differ from the generic fund types presented in the general purpose financial statements. The budgetary funds, which are listed below, are generally segregated by revenue sources. Of these seven fund types, only the first five are subject to the spending limits set by the appropriations bills.

General Fund. To account for activities funded by general tax dollars, primarily sales and income taxes.

Cash Reserve and Cash Funds. To account for financial resources used as a reserve for the General Fund if the General Fund balance should become inadequate to meet current obligations, to account for the financing of goods or services provided by a State agency to individuals or entities outside State government on a cost-reimbursement basis, and to account for the revenues and expenditures related to highway construction.

Construction Funds. To account for financial resources to be used for the acquisition or construction of major capital facilities.

Federal Funds. To account for the financial resources related to the receipt and disbursement of funds generated from the federal government as a result of grants and contracts except for federal highway monies accounted for in the Cash Funds.

Revolving Funds. To account for the financing of goods or services provided by one State agency to another State agency on a cost-reimbursement basis.

Trust Funds. To account for assets held in a trustee capacity.

Distributive Funds. To account for assets held as an agent for individuals, private organizations, and other governments and/or other funds.

The accompanying general purpose financial statements were prepared by converting budgetary fund data into the fund format required by GAAP. The Cash Basis of accounting is used for all budgetary fund types.

All State budgetary expenditures for the general, cash, construction, federal and revolving fund types are made pursuant to appropriations that may be amended by the Legislature, upon approval by the Governor. State agencies may allocate appropriations between object of expenditure accounts, except that personal service

expenditures that exceed limitations contained in the appropriations bill require Legislative amendment. Any changes in appropriations are made through an annual deficit bill or other legislation. Appropriations from the federal fund type are considered to be estimated and the Legislature has approved an administrative procedure for changing them. During fiscal year 1999, the Legislature passed a deficit appropriation bill that increased the allowable expenditure level in several of the programs.

The State utilizes encumbrance accounting to account for purchase orders, contracts, and other expenditure commitments. However, State law does not require that all encumbrances be recorded in the State's centralized accounting system and as a result, the encumbrances that were recorded in the accounting system have not been included in the accompanying general purpose financial statements except for the impact as described below.

Under State budgetary procedures, appropriation balances related to outstanding encumbrances at the end of a biennium are lapsed and reappropriated in the first year of the next biennium. In addition, the State Budget Administrator is required by law to review all encumbrances at the end of each biennium. The effect of the State's current procedures is to include in the budget columns of the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual the current year's appropriations plus the amounts reappropriated for encumbrances outstanding at the end of the prior biennium. This procedure indicates the State's intention to honor the encumbrances at the end of a biennium. The expenditure columns of the Statement include cash payments related to the appropriated and reappropriated amounts. For the year ended June 30, 1999, there were no budgetary funds in which expenditures exceeded appropriations.

Revenues are not budgeted for any funds except for the General Fund tax revenues. For financial reporting purposes, the budget columns for revenues on the Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual are reflected as being equal to actual revenues for all other revenue categories.

There are no annual budgets prepared for Trust and Distributive Funds and as a result, no budgetary comparisons are presented.

A reconciliation of the budgetary versus GAAP fund equities as of June 30, 1999, follows:

3. Cash and Cash Equivalents and Investments

Cash and Cash Equivalents. "Cash and Cash Equivalents" as reported on the combined balance sheet are under the control of the State Treasurer or other administrative bodies as determined by law. All cash deposited with the State Treasurer is initially maintained in a pooled cash account. On a daily basis, the State Treasurer invests cash not needed for current operations with the State's Investment Council that maintains a short-term investment pool for such investments. Interest earned on these investments is allocated to funds based on their percentage of the investment pool.

Investments. "Investments" as reported on the combined balance sheet include long-term investments. "Investments" are under the control of the State

Treasurer or other administrative bodies as determined by law.

4. Deposits and Investments Portfolio

Listed below is a summary of the deposit and investment portfolio that comprises the Cash and Cash Equivalents and Investments on the June 30, 1999, combined balance sheet. All securities purchased or held must either be in the custody of the State or deposited with an agent in the State's name.

Deposits. At June 30, 1999, the carrying amounts of the Primary Government's deposits were \$31,971,000 and the bank balances were \$114,588,000. All bank balances were covered by federal depository insurance or by collateral held by the State's agent in the State's name.

State of Nebraska

State Statutes require that the aggregate amount of collateral securities deposited by a bank with the State Treasurer shall be at least one hundred two percent of the amount of public funds deposited in that bank, less the amount insured by the Federal Deposit Insurance Corporation. During the year the amount of public funds deposited with a bank occasionally exceeded the amount of collateral required by statute. The State Treasurer had compensating balance agreements with various banks totaling \$15,315,000 at June 30, 1999.

At June 30, 1999, the carrying amounts of the Component Units' deposits were \$14,422,000 and the bank balances were \$15,456,000. Of the bank balances, \$1,482,000 was covered by federal depository insurance or by collateral held by the Component Units' agent in the Component Units' name, \$314,000 was collateralized with securities held by the pledging financial institution's trust department or agent but not in the Component Units' name and \$13,660,000 was not collateralized.

Investments. State Statute Section 72-1246 authorizes the State Investment Officer to invest the State's funds in accordance with the prudent person rule. The State Investment Officer may not buy on margin, buy call options, or buy put options. Certain State entities are also allowed by statute to invest in real estate and other investments.

The State's investments are categorized to give an indication of the level of custodial risk assumed by the State at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the State or its agent in the State's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the State's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent but not in the State's name.

The Pension Trust Funds own approximately 66 percent of the investments that are in Category 1.

State of Nebraska

A reconciliation of deposits and investments for the Primary Government to the Combined Balance Sheet at June 30, 1999, is as follows (dollars in thousands):

Disclosure Regarding Deposits and Investments:

Total Investments	\$ 7,401,200
Carrying amount of Deposits	31,971
Total	<u>\$ 7,433,171</u>

Combined Balance Sheet:

Cash and Cash Equivalents	\$ 614,649
Cash on Deposit with Fiscal Agents	12,411
Investments	6,328,620
Invested Securities Lending Collateral	477,491
Total	<u>\$ 7,433,171</u>

Securities Lending Transactions. State Statute Section 72-1247, authorizes the State Investment Officer to participate in securities lending transactions, where securities are loaned to broker-dealers and banks with a simultaneous agreement to return the collateral for the same securities in the future. The State's custodial bank administers the securities lending program and receives cash, United States government or government agency obligations, or convertible bonds at least equal in value to the market value of the loaned securities as collateral for securities of the type on loan at year-end. Securities lent at year-end for cash collateral are presented as unclassified in the preceding schedule of custodial risk; securities lent for securities collateral are classified according to the category for the collateral. At year-end, the State had no credit risk exposure to borrowers because the amounts the State owes the borrowers exceed the amounts the borrowers owe the State. The

collateral securities can not be pledged or sold by the State unless the borrower defaults. There are no restrictions on the amount of securities that can be loaned, and there were no losses resulting from borrower default during the year.

Either the State or the borrowers can terminate all securities loans on demand. Cash collateral is invested in one of the lending agent's short-term investment pools that had average durations of 61 and 76 days. Because loans were terminable at will, their duration did not generally match the duration of the investments made with cash collateral. There is no loss indemnification provided to the State by the contract with the custodian.

A reconciliation of deposits and investments for the Component Units to the Combined Balance Sheet at June 30, 1999, is as follows (dollars in thousands):

6. Fixed Assets

The general fixed assets of the State are those fixed assets used in performance of general governmental functions. They do not include fixed assets of proprietary funds and the component units.

The following is a summary of changes in the general fixed assets account group during the fiscal year (dollars in thousands):

	BALANCE JULY 1, 1998	ADDITIONS	DELETIONS	BALANCE JUNE 30, 1999
Land	\$ 38,328	\$ 859	\$ -	\$ 39,187
Buildings	303,770	5,414	957	308,227
Equipment	180,136	18,575	11,918	186,793
Construction in Progress	4,702	14,006	1,969	16,739
	<u>\$ 526,936</u>	<u>\$ 38,854</u>	<u>\$ 14,844</u>	<u>\$ 550,946</u>

The following is a summary of proprietary fund-type fixed assets at June 30, 1999 (dollars in thousands):

	ENTERPRISE FUNDS	INTERNAL SERVICE FUNDS	PENSION TRUST FUNDS
Machinery and equipment	\$ 450	\$ 61,058	\$ 18
Buildings	-	5,076	-
Total	450	66,134	18
Less: accumulated depreciation	(336)	(45,210)	(18)
Net fixed assets	<u>\$ 114</u>	<u>\$ 20,924</u>	<u>\$ -</u>

The following is a summary of component unit fixed assets at June 30, 1999 (dollars in thousands):

Land and Land Improvements	\$ 102,489
Buildings and Other Improvements	840,615
Equipment and Library Books	198,181
Construction in Progress	32,001
	<u>\$ 1,173,286</u>

7. Bonds Payable

Article XIII of the State's Constitution prohibits the State from incurring debt in excess of one hundred thousand dollars. However, there is a provision in the Constitution that permits the issuance of revenue bonds for: (1) construction of highways; and (2) construction of water conservation and management structures. At June 30, 1999, there was no outstanding debt for either of these purposes.

The State created the Nebraska Educational Telecommunications Facilities Corporation (NETFC) for the purpose of acquiring access to a space satellite. In May 1991, the NETFC issued \$7,180,000 of lease revenue bonds to acquire access for eight years. The NETFC is not subject to State constitutional restrictions on the incurrence of debt, which may apply to the State itself. The NETFC bonds were retired during fiscal year 1999.

The State created the Nebraska State Building Corporation (NSBC) to finance the purchase of a building used by the State for its data processing and general services operations. In September 1987, the NSBC issued

State of Nebraska

\$7,700,000 of lease revenue bonds to finance the purchase of the building. In June 1992, the NSBC issued \$7,645,000 of lease revenue bonds to refund the 1987 bonds. The NSBC is not subject to State constitutional restrictions on the incurrence of debt, which may apply to the State itself. The obligations outstanding at June 30, 1999 are collateralized by the revenues of the NSBC, which consist primarily of building rental paid by the State. Outstanding bonds payable are reported in the General Long-Term Debt Account Group.

The Colleges and Universities issue bonds for various purposes including student housing, parking facilities and special event centers. Net revenues from student

housing and dining facilities, special student fees and parking facilities fees are pledged to secure the appropriate issues. Outstanding bonds payable are reported in the College and University Funds.

All outstanding bond issues of the University of Nebraska Facilities Corporation and the Nebraska State College Facilities Corporation are general obligations of these corporations. They are separate legal entities that are not subject to State constitutional restrictions on the incurrence of debt, which may apply to the State itself. The obligations outstanding at June 30, 1999 are collateralized by a special allocation of a portion of the State cigarette tax. Outstanding bonds payable are reported in the College and University Funds.

Bonds Retired	(2,165)
Balance at June 30, 1999	<u>\$ 5,550</u>

Changes in bonds payable for Component Units for fiscal year 1999 are summarized below (dollars in thousands):

Balance at July 1, 1998	\$ 89,820
New Bonds Issued:	
University of Nebraska Facilities Corporation	82,505
Bonds Retired	(7,625)
Balance at June 30, 1999	<u>\$ 164,700</u>

Bond Defeasances – Component Units

In 1993, the University of Nebraska Facilities Corporation issued \$45,570,000 of Refunding Bonds, dated July 15, 1993, to defease outstanding 1990 bonds. In conjunction with the defeasance, the 1990 bonds maturing on or after January 1, 2001, are scheduled to be called for redemption on July 1, 2000, at a price of 101 percent of the principal amount plus accrued interest. As a result, the 1990 bonds are considered defeased and the liability for these bonds has been removed from bonds payable. At June 30, 1999, \$30,528,000 of 1990 bonds are outstanding.

On September 30, 1997, the University of Nebraska Facilities Corporation deposited \$34,764,000 into an irrevocable trust with an escrow agent to defease 1993 Series Bonds. Outstanding bonds on July 1, 2005 will

be redeemed at a price equal to the principal amount plus accrued interest. As a result, the 1993 bonds are considered to be defeased and the liability for these bonds has been removed from bonds payable. At June 30, 1999, \$35,485,000 of 1993 bonds are outstanding.

8. Lease Commitments

Capital and Operating Leases. The State leases land, office facilities, equipment, and other assets under both capital and operating leases. Although the lease terms may vary, all leases are subject to annual appropriation by the Legislature.

The minimum annual lease payments and the present value of future minimum payments for capital leases as of June 30, 1999 are as follows (dollars in thousands):

YEAR	PRIMARY GOVERNMENT		COMPONENT
	GENERAL		UNITS
	INTERNAL SERVICE FUNDS	LONG-TERM DEBT ACCOUNT GROUP	COLLEGE AND UNIVERSITY FUNDS
2000	\$ 3,849	\$ 1,379	\$ 2,993
2001	2,121	736	2,699
2002	1,012	454	2,294
2003	225	375	779
2004	206	377	724
Thereafter	-	5,292	2,368
Total Minimum Payments	7,413	8,613	11,857
Less: interest and executory costs	412	2,803	2,053
Present value of net minimum payments	<u>\$ 7,001</u>	<u>\$ 5,810</u>	<u>\$ 9,804</u>

Capital leases have been recorded at the present value of the future minimum lease payments as of the date of their inception. The following is an analysis of property and equipment under capital leases as of June 30, 1999 (dollars in thousands):

	PRIMARY GOVERNMENT		COMPONENT
	GENERAL		UNITS
	INTERNAL SERVICE FUNDS	FIXED ASSET ACCOUNT GROUP	COLLEGE AND UNIVERSITY FUNDS
Buildings	\$ -	\$ 4,565	\$ 4,335
Equipment	15,380	4,511	10,415
Less: accumulated depreciation	(9,165)	-	-
Carrying value	<u>\$ 6,215</u>	<u>\$ 9,076</u>	<u>\$ 14,750</u>

The minimum annual lease payments for operating leases as of June 30, 1999 are as follows (dollars in thousands):

YEAR	PRIMARY GOVERNMENT	COMPONENT UNITS
2000	\$ 927	\$ 4,006
2001	121	4,003
2002	121	4,003
2003	121	4,001
2004	121	4,006
Thereafter	67	29,856
Total	<u>\$ 1,478</u>	<u>\$ 49,875</u>

Primary Government operating lease payments for the year ended June 30, 1999 totaled \$6,283,000.

Lessor Transactions. The State also is a lessor of property, primarily farm land leased by the Board of Educational Lands and Funds to farmers and ranchers. At June 30, 1999, the State owned approximately 1.5 million acres of land that was under lease. Under the terms of the leases, the annual payments are subject to change based on annual market analysis. Total rents of \$22,787,000 were received under these and other lease agreements for the year ended June 30, 1999.

9. General Long-Term Debt

The following is a summary of changes in the general long-term debt account group during the fiscal year (dollars in thousands):

	BALANCE JULY 1, 1998		ADDITIONS	DELETIONS	BALANCE JUNE 30, 1999
Bonds Payable	\$ 7,715	\$ -	\$ 2,165	\$ -	\$ 5,550
Capital Lease Obligations	7,142	55	1,387	-	5,810
Claims Payable	1,807	1,462	1,515	-	1,754
Obligations Under Other Financing Arrangements	13,415	-	2,715	-	10,700
Compensated Absences	72,175	7,670	-	-	79,845
Totals	<u>\$ 102,254</u>	<u>\$ 9,187</u>	<u>\$ 7,782</u>	<u>\$ -</u>	<u>\$ 103,659</u>

The additions in compensated absences represent a net increase. "Claims Payable" consists of the long-term portion of Medicaid claims.

10. Obligations Under Other Financing Arrangements

The State has entered into special financing arrangements with certain public benefit corporations and municipalities for the purpose of lease/purchasing fixed assets and to fund certain grant programs. Under these arrangements, the State enters into an agreement with a public benefit corporation or municipality to issue debt and construct or purchase a fixed asset or capitalize a loan program. Money is appropriated from special revenue sources other than State tax receipts to pay the

debt service. This arrangement does not violate the constitutional restrictions on the incurrence of debt since debt service is being paid from user fees and not general tax revenues.

Between 1991 and 1998, the State entered into arrangements with the Nebraska Investment Finance Authority to capitalize a loan program to local units of government for wastewater treatment facilities.

The State had a contractual arrangement with the City of Grand Island, Nebraska, which financed the construction of the Nebraska Law Enforcement Training Center in Grand Island. This contractual arrangement ended during fiscal year 1999.

Changes in these financing arrangements for the year were as follows (dollars in thousands):

	BALANCE JULY 1, 1998	ADDITIONS	DELETIONS	BALANCE JUNE 30, 1999
Nebraska Investment Finance Authority	\$ 11,865	\$ -	\$ 1,165	\$ 10,700
City of Grand Island	1,550	-	1,550	-
Totals	<u>\$ 13,415</u>	<u>\$ -</u>	<u>\$ 2,715</u>	<u>\$ 10,700</u>

A summary of the future minimum contractual obligations including interest at rates from 4.00 percent to 6.80 percent is as follows (dollars in thousands):

YEAR	PRINCIPAL	INTEREST	TOTAL
2000	\$ 1,525	\$ 490	\$ 2,015
2001	1,610	437	2,047
2002	1,670	379	2,049
2003	1,265	316	1,581
2004	1,190	248	1,438
Thereafter	3,440	554	3,994
Total	<u>\$ 10,700</u>	<u>\$ 2,424</u>	<u>\$ 13,124</u>

11. Contributed Capital

Internal Service Fund contributed capital at June 30, 1999 consisted of the following (dollars in thousands):

Correctional Services	\$ 205
Information Management Services	1,824
Risk Management	21
Accounting Services	59
Total	<u>\$ 2,109</u>

There were no changes in contributed capital balances during the year.

12. Pension Plans

Plans Administered by the Public Employees Retirement Board

The Public Employees Retirement Board, which consists of seven members, was created in 1971 to administer the Nebraska retirement plans then in existence. Those plans were the School, State Employees', Judges' and State Patrol plans. In October of 1973, the Public Employees Retirement Board assumed the administration of the Nebraska Counties Retirement System. The plans have been created in accordance with Internal Revenue Code, Sections 401(a) and 414(h). Contribution and benefit provisions are established by State law and may only be amended by the State Legislature.

The Board prepares separate reports for the defined contribution plans and for the defined benefit plans. Copies of these reports that include financial statements and required supplementary information for the plans may be obtained by writing to Public Employees Retirement Systems, P.O. Box 94816, Lincoln, NE 68509-4816, or by calling 402-471-2053.

Basis of Accounting. The financial statements of the plans are prepared using the accrual basis of accounting, and are included as pension trust funds in the accompanying general purpose financial statements. Plan member and employer contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Plan Description and Funding Policy. By State law, there is to be an equitable allocation of expenses among the retirement systems administered by the Board, and all expenses shall be provided from the investment income earned by the various retirement funds. Following is a summary of each of these plans:

State Employees' Retirement. This plan became effective January 1, 1964, and is a single-employer defined contribution plan established to provide benefits at retirement to general employees of the State. The amounts presented in the accompanying general purpose financial statements for the State Employees' Retirement System are for the fiscal year ended December 31, 1998.

Participation in the plan is required for all permanent full-time employees upon reaching the age of 30 and completion of 24 months of continuous service. Prior to August 1, 1998, each member contributed 3.6 percent of their compensation until \$864 had been paid and 4.8 percent of pay for the rest of the calendar year. Beginning August 1, 1998, each member contributes 4.33 percent of their compensation until \$864 has been paid and 4.8 percent of pay for the rest of the calendar year. The

State matches a member's contribution at a rate of 156 percent.

As of December 31, 1998, there were 13,025 active members and 1,438 inactive members. Members contributed \$16,081,000 and the State contributed \$25,053,000 during the year ended December 31, 1998, which was equal to required contributions.

County Employees' Retirement. In 1973, the State Legislature brought the County Employees' Retirement System under the administration of the Board. The amounts presented in the accompanying general purpose financial statements for the County Employees' Retirement System are for the fiscal year ended December 31, 1998.

The plan is a multiple-employer defined contribution plan that covers employees of 91 of the 93 counties. Participation in the plan is required of all employees working 20 or more hours per week upon the completion of 12 months of continuous service and of all elected officials. County employees and elected officials contribute four percent and commissioned law enforcement personnel (for participating counties with an excess of 85,000 inhabitants) contribute six percent of their total compensation. The counties contribute six percent and eight percent, respectively. The State is not required to contribute to this plan.

As of December 31, 1998, there were 6,071 active members and 810 inactive members. Members contributed \$4,605,000 and counties contributed \$6,519,000 during the year ended December 31, 1998, which were equal to required contributions.

School Retirement. The School Retirement System is a cost-sharing multiple-employer defined benefit pension plan with 701 participating school districts. All regular public school employees in Nebraska, other than those who have their own retirement plan, are members of the system. The benefits are based on both service and contributions.

The State's contribution is based on an annual actuarial valuation. The employees' contribution is 7.25 percent of their total pay and the school district's contribution is 101 percent of the employees' contribution.

Judges' Retirement. The Judges' Retirement System is a single-employer defined benefit pension system. The membership includes judges and associate judges employed by the State for the Supreme Court, Court of Appeals, District Court,

Workers' Compensation Court, County Court, and Juvenile Court. Benefits are based on both service and final average salary. Benefits vest when the judge takes office.

Members' contributions, a portion of court fees collected, and the State's contribution, which is based on an annual actuarial valuation, fund the plan. The judges contribute six percent of their salary.

State Patrol Retirement. The State Patrol Retirement System is a single-employer defined benefit pension system for officers of the patrol. The benefits are based on a percentage of the final average salary multiplied by years of service, not to exceed 75 percent of the average salary. Participation is mandated upon employment.

Members are required to contribute eleven percent of their annual pay, which is matched by the State Patrol. The State's contribution is based on an annual actuarial valuation.

The following schedule presents the primary actuarial assumptions used in the most recent actuarial reports for the single-employer defined benefit contribution plans:

	JUDGES' RETIREMENT	STATE PATROL RETIREMENT
Actuarial Valuation Date	6/30/99	6/30/99
Actuarial Cost Method	Frozen Entry Age	Frozen Entry Age
Amortization Method	Level Amount Closed	Level Amount Closed

Other Plans

Department of Labor, Division of Employment Security Retirement Plan. As of July 1, 1998, the date of the most recent actuarial valuation, there were 205 current or former employees of the Nebraska Department of Labor, Employment Security Division (Federal Special Revenue Fund) who were participants (182 active; 23 inactive) in a defined benefit retirement plan administered by the Principal Financial Group (plan carrier). The plan is fully funded through participants' contributions and special federal revenues from the U.S. Department of Labor, Employment and Training Administration and is accounted as a non-contributing plan (no State General Fund Revenues).

The plan includes only employees hired by the Nebraska Department of Labor, Employment Security Division prior to July 1, 1984. Employees becoming eligible for retirement plan participation subsequent to that date are covered by the State Employees' Retirement plan.

The employees' contribution rate to the defined benefit plan is set by the Commissioner of Labor at somewhere between zero and seven percent of earnings each year based on an annual review of the financial condition of the plan as presented by the insurance company's actuaries. The employer contribution is based on an annual Actuarial Valuation Report and includes contributions for prior service. Retirement benefits are based on a percentage formula that includes the employee's salary and years of credited service.

The July 1, 1998, net present value of assets available for benefits was \$65,670,000 which exceeded the present value of future retirement benefits by \$4,950,000. The average assumed rate of return used in determining the actuarial value of accumulated plan benefits was 7.5 percent.

The Nebraska Department of Labor's required and actual current year employer contributions were \$0. The total personal services for the Division of Employment was \$15,069,000. The total payroll for the active participants in this plan was \$6,479,000.

Component Units. The Teachers Insurance and Annuity Association (TIAA-CREF), a privately administered defined contribution retirement plan, provides individual retirement fund contracts for eligible employees of the State Colleges and Universities. Under the plan, eligible employees contribute 2 percent to 6 percent of monthly earnings and the institutions match the employees' contributions plus an additional 1.25 percent to 2.5 percent of earnings. Participation in the plan is required upon reaching the age of 30 with two years of continuous service. Voluntary participation is permitted upon reaching the age of 25 and two years of continuous service. The plan benefits are fully vested at the date of contribution. The State assumes no liability for the plan other than payment of contributions.

The total payroll for the State Colleges and Universities for fiscal year 1999 was \$514,403,000 of which \$388,770,000 was covered by the plan. The institutions'

contributions were \$28,313,000 or 7.28 percent of covered payroll and the employees' contributions were \$20,497,000 or 5.27 percent of covered payroll.

13. Contingencies and Commitments

Grants and Contracts. The State participates in various federally assisted grant programs that are subject to review and audit by the grantor agencies. Entitlement to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a federal audit may become a liability of the State.

All State agencies including institutions of higher education are required to comply with various federal regulations issued by the U.S. Office of Management and Budget if such agency or institution is a recipient of federal grants, contracts, or other sponsored agreements. Certain agencies or institutions may not be in total compliance with these regulations. Failure to comply may result in questions concerning the allowability of related direct and indirect charges pursuant to such agreements. It is believed that the ultimate disallowance pertaining to these regulations, if any, will not be material to the overall financial condition of the State.

Litigation. The State is named as a party in legal proceedings that occur in the normal course of governmental operations. Such litigation includes, but is not limited to, claims asserted against the State arising from alleged torts, alleged breaches of contract, condemnation proceedings and other alleged violations of State and Federal laws. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the State for all these proceedings. It is the State's opinion that the ultimate liability for these and other proceedings is not expected to have a material adverse effect on the State's financial position.

The State has been named, at an increased level during the past year, as a party in legal proceedings that occur outside of the normal course of governmental operations. It is not possible at the present time to estimate the ultimate outcome or liability, if any, of the State for all these proceedings. The effects of this litigation will be reflected in future years as the uncertainties regarding the litigation are resolved.

Construction Commitments. At June 30, 1999, the State had contractual commitments of approximately \$419,721,000 for various highway and building projects. Funding of these future expenditures is expected to be provided as follows (dollars in thousands):

Federal funds	\$ 101,972
State funds	311,541
Local funds	6,208
	<u>\$ 419,721</u>

At June 30, 1999, the Colleges and Universities had contracted for the construction of several facilities that are estimated to cost \$155,743,000. The approximate remaining costs to complete these facilities were \$62,047,000, which will be financed as follows (dollars in thousands):

State appropriations	\$ 9,195
University funds	9,432
Private gifts, grants and contracts	41,643
Bond funds	1,777
	<u>\$ 62,047</u>

14. Risk Management

Through the Department of Administrative Services, Division of Risk Management, the State maintains an insurance and self-insurance program. Workers' compensation, employee liability and general liability under State law are self-insured. The Colleges and Universities are self-insured for a portion of their comprehensive general and hospital professional liability and property losses. Motor vehicle liability is insured for the first \$1 million of exposure per accident and employee dishonesty is bonded for the first \$1 million annually with a \$10,000 retention per incident. Settled claims have not exceeded this commercial insurance coverage in any of the past three years. The State retains the full risk for all real and personal property damage. The Division of Risk Management also maintains health care and life insurance for covered State employees. These activities are reported in the Risk Management Internal Service Fund.

Claims liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. The balance of claims liabilities is determined by an analysis of past, current, and future estimated loss experience. Because actual claims liabilities depend on such factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liability may not result in an exact amount. Claims liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Changes in the balances of claims liabilities during the years ended June 30, 1999, and 1998, were as follows (dollars in thousands):

	Fiscal Year	
	1999	1998
Beginning Balance	\$ 28,594	\$ 29,816
Current Year Claims and Changes in Estimates	78,153	72,880
Claim Payments	76,284	74,102
Ending Balance	<u>\$ 30,463</u>	<u>\$ 28,594</u>

15. Segment Information

The State maintains two enterprise funds. The Lottery Fund accounts for all receipts and expenses from the operations of the State Lottery. The Excess Liability Fund accounts for liability insurance coverage provided to health care providers.

Segment information for the fiscal year ended June 30, 1999, is as follows (dollars in thousands):

	LOTTERY	EXCESS LIABILITY
Operating Revenue	\$ 72,356	\$ 640
Operating Expenses:		
Depreciation	53	-
Other	55,093	6,788
Operating Income	17,210	(6,148)
Operating Transfers Out	(18,089)	-
Nonoperating Revenues	979	2,263
Net Income (Loss)	\$ 100	\$ (3,885)
Current Assets	\$ 16,793	\$ 1,956
Current Liabilities	10,770	4,798
Net Working Capital	\$ 6,023	\$ (2,842)
Total Assets	\$ 19,798	\$ 59,415
Total Liabilities	10,867	26,999
Retained Earnings	\$ 8,931	\$ 32,416
Long-Term Liabilities	\$ 97	\$ 22,201
Property, Plant and Equipment, Additions	\$ 63	\$ -

There were no operating grants, entitlements, tax or shared revenues, or capital contributions during 1999.

16. Joint Venture

On October 1, 1997, the Board of Regents of the University of Nebraska and Bishop Clarkson Memorial Hospital (Clarkson) entered into a Joint Operating Agreement forming the Nebraska Health System (NHS), a Nebraska nonprofit corporation. NHS is governed by a Board of Directors comprised of six members appointed by Clarkson and six members appointed by the Board of Regents. Upon dissolution of NHS, the University and Clarkson will share equally in the remaining assets. Because the University has an ongoing financial interest in NHS, the University is accounting for the joint venture using the equity method. Contributions to the joint venture by the University included cash, temporary investments, accounts receivable, investment reserves, equipment and debt resulting in a total initial investment of approximately \$114,300,000. The University also entered into an operating lease arrangement with NHS for the lease of certain healthcare facilities. The University has recorded a fifty percent equity in

earnings of NHS for the year ended June 30, 1999 totaling approximately \$9,120,000. In addition, to the extent that sufficient funds are available as determined by the NHS Board of Directors, the University will receive annual capital contributions of \$6,000,000. No distribution was received during the fiscal year ended June 30, 1999.

In connection with the Joint Operating Agreement, the Board of Regents also entered into an Academic Affiliation Agreement for Education and Research with NHS. In accordance with this agreement, the University will receive fifty percent of net revenues from the operations over 4.5 percent of the net revenues retained by NHS. As of June 30, 1999, no additional revenues were received as net revenues of NHS did not exceed 4.5 percent.

Separate financial statements of NHS can be obtained from the Nebraska Health System, 42nd Street and Dewey Avenue, Omaha NE 68105.

17. Subsequent Events

On July 15, 1999, the Nebraska State Colleges Facilities Corporation issued \$6,845,000 of bonds to be apportioned to the Nebraska State Colleges. Bond debt service requirements are to be paid from a state appropriation, and a capital improvement fee collected by each of the colleges. Bond proceeds will be used for capital improvements.

On October 1, 1999, the University of Nebraska Board of Regents approved several actions relating to various construction projects. The Board of Regents accepted a gift from the University Foundation which includes the Security Mutual Life Insurance Company and Coastal Mart properties and partial funding to renovate and develop the Security Mutual property for use by the University of Nebraska-Lincoln campus. The commitment for the renovation includes \$3,200,000 from the Foundation and \$2,900,000 to be funded by the University through cash funds and rentals received on the Coastal Mart property. The Board of Regents also approved a new chemical engineering facility at the University of Nebraska-Lincoln. A contract for the construction of this project has not been selected, however, the estimated project cost is \$24,000,000. The University has also entered into an interlocal agreement with the City of Lincoln, NEBCO, and the Railroad Transportation Safety District for the construction of a baseball and softball complex to be constructed on City owned property. The estimated project cost is approximately \$29,500,000 from which the University athletic department would contribute \$10,600,000 available from private donations.

REQUIRED SUPPLEMENTARY INFORMATION (Unaudited)

For the Year Ended June 30, 1999

Year 2000 Issues

Many computer-based financial, information and operational systems may not be able to properly interpret and apply some dates before and following December 31, 1999 (commonly referred to as the year 2000 problem). If not corrected, malfunction of these systems could adversely impact information processing and system operations. The State recognized this problem prior to 1995 and has been working on a resolution of the issue since that time. A formal plan was developed and has been revised and expanded, as additional information has become available.

The following stages have been identified as necessary to implement a year 2000 compliant system:

Awareness stage – encompasses establishing a budget and project plan for dealing with the year 2000 issue.

Assessment stage – when the organization begins the actual process of identifying all of its systems and individual components of the systems. An organization may decide to review all system components for year 2000 compliance or, through a risk analysis, identify only mission critical systems and equipment to check for compliance.

Remediation stage – when the organization actually makes changes to systems and equipment. This stage deals primarily with the technical issues of converting existing systems, or switching to compliant systems. During this stage, decisions are made on how to make the systems or processes year 2000 compliant, and the required system changes are made.

Validation/Testing stage – when the organization validates and tests the changes made during the conversion process. The development of test data

and test scripts, the running of test scripts, and the review of test results are crucial for this stage of the conversion process to be successful. If the testing results show anomalies, the tested area needs to be corrected and retested.

The State's computer systems have been evaluated. If necessary, they have been repaired and tested or were replaced. The statewide accounting and payroll systems have been evaluated, repaired and tested for the ability to process transactions in the year 2000 and beyond. Other agency specific applications that operate on the State's mainframe computer system have also been evaluated, repaired and tested or were replaced. Inventory, evaluation, repair and testing of the State's embedded systems are the responsibility of each department or agency that owns those systems.

The State has budgeted \$20,500,000 for the evaluation, repair and/or replacement of its mainframe systems. As of June 30, 1999, all of the State's mission critical mainframe systems have completed all of the stages identified as necessary to implement a year 2000 compliant system.

Management believes that the State has the correct plan in place and that the State will be able to process date and/or date-related information correctly prior to, during, and after January 1, 2000. However, because of the unprecedented nature of the year 2000 issue, its effect and the success of the related remediation efforts cannot be fully determinable until the year 2000 and thereafter. Consequently, management cannot guarantee that the State is or will be year 2000 ready, that the State's remediation efforts will be successful in whole or in part, or that parties with whom the State does business will be year 2000 ready.

COMBINING AND INDIVIDUAL FUND STATEMENTS

SPECIAL REVENUE FUNDS

Specific revenues that are legally restricted to expenditure for particular activities are accounted for in Special Revenue Funds. A brief description of each fund follows.

Licensing and Regulation. This fund accounts for all activities of agencies, boards, and commissions whose primary function is licensing individuals and regulating industry and professions. This includes a diverse group of professions such as abstracters, medical professions, barbers, engineers, architects and accountants.

Highway Fund. This fund accounts for the activities of the Department of Motor Vehicles and the Department of Roads in relation to gas taxes and other highway user fees.

Economic Development. This fund accounts for activities to develop and promote the growth of industry, agriculture, commerce and tourism, and utilization of resources within Nebraska.

Airport Development. This fund accounts for the activities relating to aircraft fuels tax, which is administered by the Department of Aeronautics for the support and maintenance of public airports.

Game and Parks. This fund accounts for the activities related to the Nebraska Game and Parks Commission, which is responsible for the development and preservation of the fish and wildlife resources of Nebraska, and operation and administration of the State park system.

Energy Conservation. This fund accounts for activities relating to the oil and gas severance taxes as well as energy conservation and development activities. The State Energy Office is responsible for providing technical assistance on energy conservation and development, distributing funds for the school weatherization program, and administering and distributing federal funds provided to the State in the area of energy efficiency.

Federal Fund. This fund accounts for substantially all federal monies received by the State, except those received by the Highway Fund and the Colleges and Universities.

Health and Social Services. This fund accounts for activities of agencies, boards, and commissions relating to health care and social services.

State Building Corporation. This fund accounts for the activities of a blended component unit.

Other Special Revenue. This fund accounts for various other revenues that must be used for specific purposes.

ENTERPRISE FUNDS

Enterprise Funds are maintained to account for operations that are financed and operated in a manner similar to private business enterprises—where the costs of providing goods and services to the general public are financed primarily through user charges.

Lottery Fund. This fund accounts for all receipts and expenses from the operations of the State Lottery.

Excess Liability Fund. This fund accounts for the activity resulting from implementation of the Nebraska Hospital-Medical Liability Act. Revenues are primarily insurance premiums from certain health care providers and a surcharge levied on all health care providers in Nebraska. Expenses from the fund are used to pay judgments against the insured health care provider.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the operations of State agencies that provide goods and services to other departments or agencies within State government on a cost-reimbursement basis. The State has the following internal service funds:

Correctional Services. The activities of Cornhusker State Industries in the Department of Correctional Services are accounted for in this fund.

Buildings and Grounds. The activities of the Department of Administrative Services, Building Division, for space rental, office and storage, and operating the parking areas are accounted for in this fund.

General Services. This fund accounts for the operations of central services provided by the Department of Administrative Services, Materiel Division. These operations are the central mailroom, printing, central stores, purchasing services, surplus State property, and other miscellaneous office services.

Communications. This fund accounts for the activities of the central communications network maintained by the Department of Administrative Services, Communications Division.

Information Management Services. The central data processing operations maintained by the Department of Administrative Services, Information Management Services Division, are accounted for in this fund.

Transportation Services Bureau. This fund accounts for the operations of the central motor pool, which is under the Department of Administrative Services, Transportation Services Bureau.

Risk Management. The activities of the Department of Administrative Services, Division of Risk Management, which include workers' compensation and general liability claims, and of the State Employees Insurance Fund, which include life and health insurance programs, are accounted for in this fund.

Accounting Services. The accounting operations maintained by the Department of Administrative Services, Accounting Division, are accounted for in this fund.

Other Internal Service Funds. This fund accounts for the micrographics services and warehousing of records by the Records Management Division of the Secretary of State, the activities of the Investment Council, and the temporary employee pool maintained by the Department of Administrative Services, Division of State Personnel.

TRUST AND AGENCY FUNDS

Trust and agency funds are used to account for assets held by the State of Nebraska in a fiduciary capacity. The State has the following trust and agency funds:

EXPENDABLE TRUST FUNDS

Unemployment Compensation Fund. This fund accounts for the State's unemployment compensation benefits. Revenues consist of taxes assessed on employers to pay benefits to qualified unemployed persons.

Deferred Compensation Fund. This fund accounts for activities in the State's deferred compensation plan organized in accordance with Section 457 of the Internal Revenue Code.

Second Injury Fund. This fund accounts for assessments from insurance carriers and self-insurers. Compensation payments are made to employees on the basis of combined disabilities, part of which were pre-existing at the time of employment.

Vocational Rehabilitation Fund. This fund provides rehabilitation services to employees to restore the employee to gainful employment. Funding comes from assessments to insurance companies and self-insurers.

Canteen and Welfare Fund. This fund provides general entertainment at correctional facilities for youth and adult offenders. Revenues are from vending sales, projects, donations and gifts.

Escheat Trust Fund. This fund makes payments to rightful owners for financial assets turned over to the State Treasurer because the assets were left unclaimed at corporations, business associations, banking and financial organizations, insurance companies, utilities and public authorities. If the rightful owners cannot be located, excess funds are transferred to the Permanent School Fund.

Other Expendable Trust Funds. Amos Trust, Agriculture and University Land Lease, Public Service Commission Trust Account, and Miscellaneous Expendable Trust.

NONEXPENDABLE TRUST FUNDS

Aeronautics Trust Fund. This fund receives proceeds from the sale of state-owned airfields. Investment income is used to pay for expenses of the Department of Aeronautics.

Nebraska Veterans' Aid Fund. This fund accounts for the investment activity of a General Fund contribution made in a prior year. Earnings on the investment are used to provide emergency financial assistance to eligible veterans and dependents.

Permanent School Fund. This fund receives proceeds from any sale of the school lands held in trust for public education, payments for easements and rights-of-way over these lands, royalties and severance taxes paid on oil, gas and minerals produced from this lands, escheats, unclaimed property and other items provided by law. The net income earned on this fund is distributed annually to the K – 12 public schools by the Commissioner of Education as provided by law.

Permanent Endowment Fund. This fund receives the proceeds of sales of land and investments endowed to the University by the Federal Government. This fund is under the control of the Board of Educational Lands and Funds, which is a part of the primary government. Income on these funds is used for support and maintenance of the University.

Agriculture Endowment Fund. This fund receives the proceeds of sales of land and investments endowed to the University Agriculture College by the Federal Government. This fund is under the control of the Board of Educational Lands and Funds, which is a part of the primary government. Income from this fund is used for support and maintenance of the Agriculture College.

Other Nonexpendable Trust Funds. Normal School Endowment, J.J. Soukup, and Miscellaneous Nonexpendable Trust.

PENSION TRUST FUNDS

State Employees' Retirement, County Employees' Retirement, Judges' Retirement, State Patrol Retirement, and School Retirement Systems.

AGENCY FUNDS

Local Government Fund. This fund receives money for redistribution to counties and other political subdivisions.

Payroll Withholding Fund. This fund receives all payroll funds needed to pay employees, the Federal Government, other State agencies, and payroll vendors.

Other Agency Funds. Ohio College Library Service, Severance Tax Fund, Court Ordered Settlement, County Court Trust Funds, the Department of Correctional Services Inmate Trust Funds, and the Department of Public Institutions Trust Funds.

STATISTICAL SECTION

The Statistical Section presents comparative data for the past ten years, and other pertinent information involving taxes, revenues, expenditures, demographic data and other miscellaneous statistics.

The statistical data is presented to give report users a better historical perspective and assist in assessing current financial status and trends of the governmental unit. Economic data is presented to allow a broader understanding of the economic and social environment in which State government operates.

1998	916,440	891,709	24,731	2.7	4.5

(a) Data for 1970 and later are based on a Labor Force concept rather than the Work Force used previously, and are not strictly comparable with data for previous years.

(b) Data for 1977 and later are not comparable to prior years because of changes in the method of estimating the labor force.

NOTE: (1) Kearney State College became the University of Nebraska at Kearney in 1991.

(2) University of Nebraska-Lincoln count includes NCTA-Curtis for all years.

(3) Central CC reporting under continuous enrollment practice abandoned in 1996. Enrollment numbers have been retroactively changed to the reporting practice consistent with that of the other Community Colleges.
