

**SUMMARY OF NEBRASKA POLITICAL SUBDIVISIONS  
OUTSTANDING BONDED INDEBTEDNESS**

**BUDGET YEARS 2000-2001 THROUGH 2006-2007**

This document is an official public record of the State of Nebraska, issued by  
the Nebraska Auditor of Public Accounts.

Modification of this document may change the accuracy of the original  
document and may be prohibited by law.

Issued on October 24, 2006

## **APA Summary of Evaluation Information**

The Auditor of Public Accounts (APA) was asked, “What is the total outstanding bonded indebtedness of political subdivisions in the State of Nebraska?” and “How much has it increased since budget year 2000-2001?”

The outstanding bonded indebtedness information was gathered from the APA Political Subdivision Database. The database contains budgeted (projected) financial activity for political subdivisions of the State of Nebraska. Outstanding bonded indebtedness information was gathered for the budget years 2000-2001, 2001-2002, 2002-2003, 2003-2004, 2004-2005, 2005-2006, and 2006-2007.

The outstanding bonded indebtedness dollar amount is reported by all political subdivisions on the budget documents they submit annually to the APA. For purposes of this summary, only those political subdivisions who reported any outstanding bonded indebtedness have been included. All political subdivisions, except schools, report their outstanding bonded indebtedness as of the beginning of the political subdivisions’ budget period. School districts report their outstanding bonded indebtedness as of the end of their budget period. The dollar amounts have not been audited by the APA; however, they are reflected as reported by the political subdivision in total, including both the principal and interest.

We also need to point out that fiscal year ends differ between political subdivisions; therefore, the totals reflected in this summary are based on the budget period reported and do not reflect outstanding bonded indebtedness as of a specific date. This summary is a result of the information received by the APA prior to October 23, 2006. Adjustments and updates are made to the database on a daily basis as amendments and updated information is submitted by the political subdivisions.

## **APA Summary of Evaluation Results**

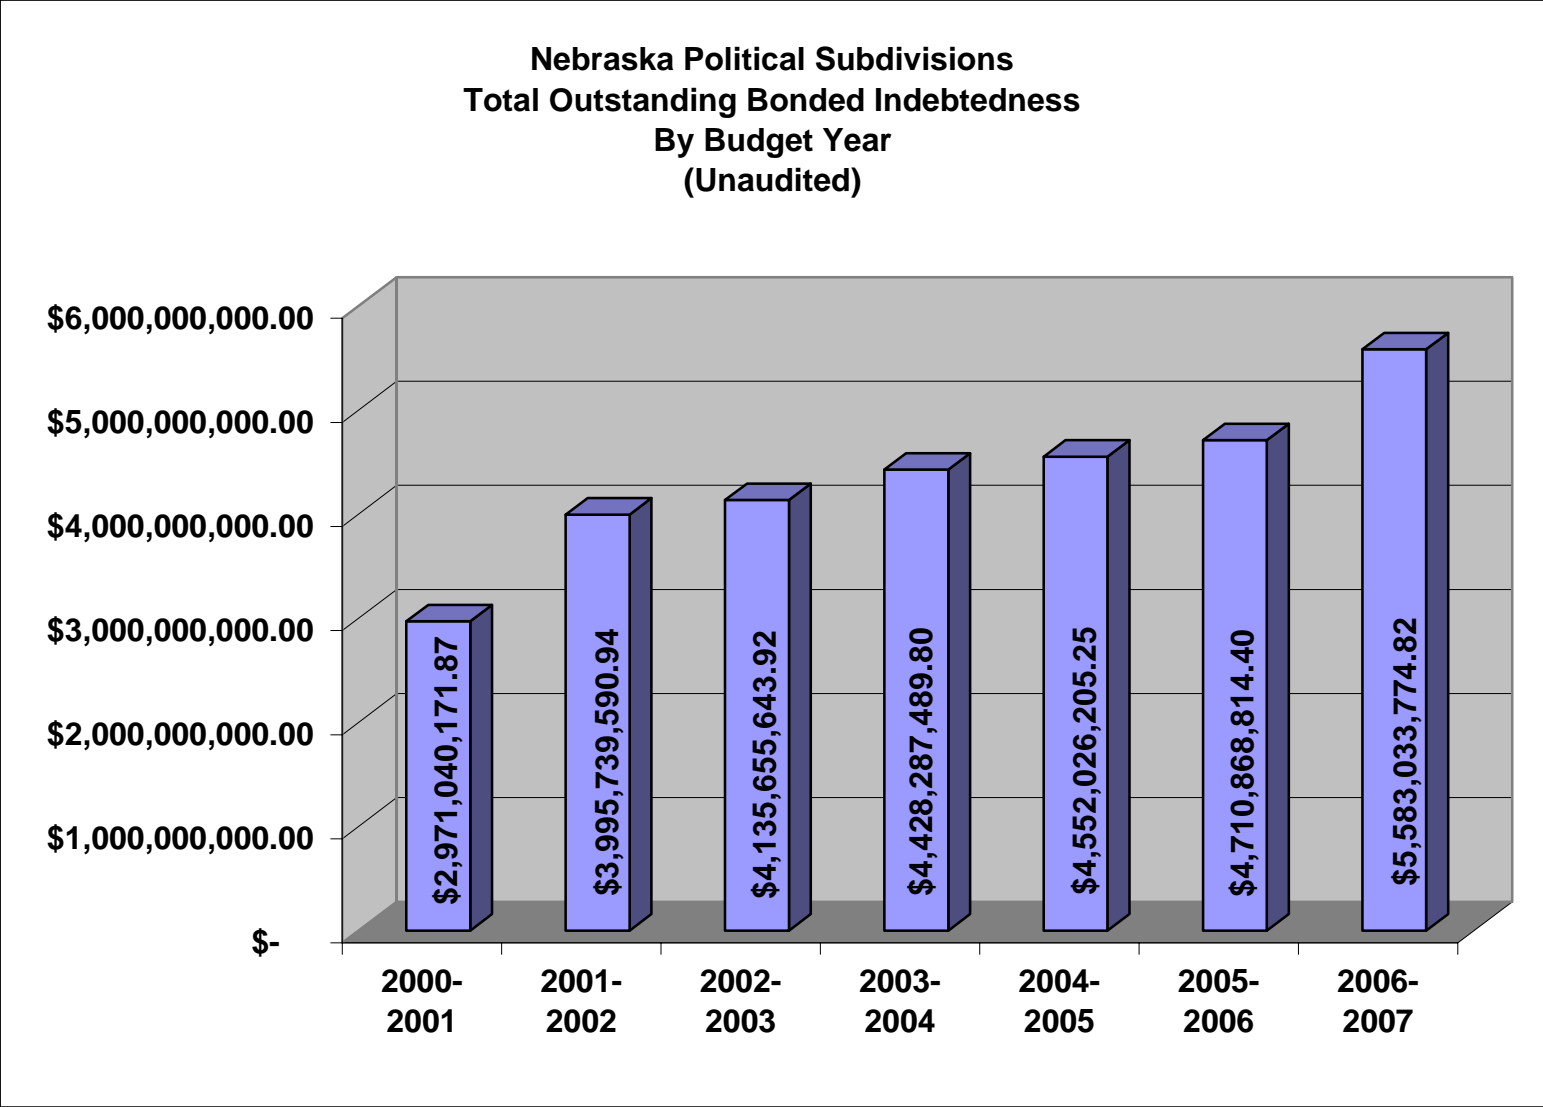

The overall summary of our results are as listed:

- The total political subdivision outstanding bonded indebtedness for budget year 2006-2007 budget is \$5,583,033,774.82. Political subdivisions outstanding bonded indebtedness has increased \$2,611,993,602.95, which is 88%, from budget year 2000-2001 to 2006-2007. The information reflected has not been audited by the APA; it is just a summary of the amounts submitted to the APA by the political subdivisions on their budgets.

**NOTE:** Outstanding bonded indebtedness is reported as of the BEGINNING of the budget period, except School Districts. School Districts report their outstanding bonded indebtedness as of the END of the budget period. Fiscal year ends differ between subdivisions. The outstanding bonded indebtedness amounts shown above ARE NOT as of a specific date because of the variations in fiscal year ends.

School Districts are shown as currently classified for budget year 2006-2007, except some Class 1s are shown as classified in budget year 2005-2006.
