State of Nebraska Highest Paid Vendors and Personnel for Fiscal Year 2008 Summary

**This document is an official public record of the State of Nebraska, issued by
the Auditor of Public Accounts.**

**Modification of this document may change the accuracy of the original
document and may be prohibited by law.**

Issued on September 15, 2008

The Auditor of Public Accounts (APA) has prepared an unaudited summary of vendors paid \$500,000 or more and personnel with gross pay of \$100,000 or more from the State of Nebraska for the period of July 1, 2007 through June 30, 2008 (FY 2008). This information was summarized from the detailed information provided at the request of the APA by the Nebraska Information System (NIS) team and the University of Nebraska-Central Administration. The information was taken from NIS - the State's business solution software system and SAP - Systems Applications and Products in Data Processing which is the University's business solution software system. Both of these systems are considered "live" systems; the information in our report includes data based on the date in which the data was retrieved from the systems. The funding for these payments comes from all fund types; General, Cash, Construction, Federal, Revolving, and Trust funds.

State Personnel with Gross Pay of \$100,000 or More - See Exhibit A.

Exhibit A is a list of all State personnel, excluding the University of Nebraska, with actual gross pay of \$100,000 or more for FY 2008. The information was generated by the NIS team from NIS and summarized by the APA based strictly on the NIS address book number as provided from NIS. The listing reflects the NIS information as of June 30, 2008 by name, job description, total gross pay for FY 2008, and agency.

This information reflects the total actual gross pay received during the fiscal year and may include payments in addition to annual salary such as supplemental pay, vacation and sick leave payouts on retirement, and payments for legal settlements. We are aware of at least five instances where the employees listed on the chart received significant supplemental payments in addition to their salary - Harold Thaut, Polly Feis, Christine Wright, Allen Tompkins, and Ann Bleed. We noted 249 State personnel with gross pay of \$100,000 or more for FY 2008 totaling \$30,572,820.

University Personnel with Gross Pay of \$100,000 or More - See Exhibit B.

Exhibit B is a list of all University personnel with gross pay of \$100,000 or more for the FY 2008. The information was generated by the University of Nebraska from SAP. The APA summarized the information and the listing reflects the name, primary University position, and gross pay of \$100,000 or more for FY 2008.

The "Primary Position" column indicates the position title at fiscal year end. As a result, if an individual retired before June 30, 2008, their primary position is noted as "Retiree." This information reflects the total actual gross pay received and may include payments to employees in addition to salary as explained above with respect to state employees. We noted 1,207 University personnel with gross pay of \$100,000 or more for FY 2008 totaling \$173,898,869.

Vendors Paid \$500,000 or More from the State of Nebraska - See Exhibit C.

Exhibit C is a list of vendors who were paid \$500,000 or more for FY 2008. This information was generated by the NIS team from NIS. The original information provided from NIS included the vendor paid; Federal Tax Identification Number (FTIN), NIS address book number, and NIS address book type.

For this listing, the APA excluded tax return related payments and vendors the APA considers to be political subdivisions of the state. The APA totaled the amounts paid to vendors by using the FTIN number as recorded in NIS to get the total paid to each vendor for FY 2008. The APA noted there were numerous payments with no FTIN number or incorrect FTIN numbers on the information received, the APA did not adjust the numbers and are strictly reporting the paid amounts based on the FTIN number reported from NIS. This report includes only the vendor name as identified by the NIS address book. In the cases where multiple address book numbers were assigned to the same vendor with varying names, the APA subjectively selected the most prominent name or a combination of the names to report. The payment amounts are for various reasons, excluding tax refunds. The APA subjectively determined the most prominent payment description or a combination of such to be included in the general payment description column of the exhibit, it is not all inclusive. We noted 871 vendors receiving total payments of \$500,000 or more in FY 2008 totaling \$3,703,214,161.

Political Subdivisions Paid \$500,000 or more from the State of Nebraska - See Exhibit D.

Exhibit D is a list of political subdivisions paid \$500,000 or more which were initially withheld from Exhibit C. The information was prepared in the same manner as Exhibit C with the exception that no payment descriptions were included. This report includes only the vendor name as identified by the NIS address book. In the cases where multiple address book numbers were assigned to the same entity with varying names, the APA subjectively selected the most prominent name or a combination of the names to report. We noted 500 political subdivisions receiving total payments of \$500,000 or more in fiscal year 2008 totaling \$2,455,166,601.

The APA employees involved in this evaluation were:

Mary Avery, Special Audits and Finance Manager
Philip Olsen, Auditor-In-Charge
Zach Wells, Auditor-In-Charge
