NEBRASKA STATE COLLEGE SYSTEM (A COMPONENT UNIT OF THE STATE OF NEBRASKA)

INDEPENDENT AUDITORS' REPORT

Board of Trustees of the Nebraska State College System
Lincoln, Nebraska:

We have audited the accompanying financial statements of the business-type activities and discretely presented component units of the Nebraska State College System (NSCS) (a component unit of the State of Nebraska) as of and for the year ended June 30, 2012, which collectively comprise the Nebraska State College System's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the Nebraska State College System's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the accompanying Statements of Financial Position of the Chadron State, Peru State, and Wayne State Foundations (Foundations), discretely presented component units of the NSCS, as of June 30, 2012, December 31, 2011, and June 30, 2012, respectively, and the related Statements of Activities and Cash Flows for the years then ended. Those statements are presented separately on pages 14 through 16, 19 through 21, and 24 through 26. We also did not audit the financial statements of the Nebraska State College System Revenue and Refunding Bond Fund, and the Nebraska State Colleges Facilities Corporation, a blended component unit of the Nebraska State College System, as of June 30, 2012. The Revenue and Refunding Bond Fund and Facilities Corporation represent 11%, 83%, and 18%, respectively, of the total assets, liabilities, and revenues, of the primary government. The financial statements of the Foundations, Revenue and Refunding Bond Fund, and Facilities Corporation were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Chadron State, Peru State, and Wayne State Foundations, the Nebraska State College System Revenue and Refunding Bond Fund, and the Nebraska State Colleges Facilities Corporation is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the

Foundations, the Revenue and Refunding Bond Fund, and the Facilities Corporation were not audited in accordance with *Government Auditing Standards*. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the NSCS's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component units of the NSCS, as of June 30, 2012, and December 31, 2011 (Peru State Foundation), and the respective changes in financial position and cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2012, on our consideration of the Nebraska State College System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 11 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the NSCS's basic financial statements. The accompanying Schedules of Expenditures of Federal Awards required by the U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the

Combining Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards required by the U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the Combining Schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described previously, and the reports of the other auditors, the accompanying Schedule of Expenditures of Federal Awards required by the OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the Combining Schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED

This section of the Nebraska State College System's (NSCS) financial report presents a narrative overview and analysis of the financial activities of the NSCS for the fiscal year ended June 30, 2012. The analysis has been prepared by management of the NSCS and is intended to be read with the financial statements and the related footnotes that follow this section.

Management's discussion and analysis relates only to the NSCS and does not include any overview of the financial position and activities of the Chadron State Foundation, Peru State Foundation, and Wayne State Foundation which are considered component units of the NSCS.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the NSCS's basic financial statements, which include: 1) Statement of Net Assets, 2) Statement of Revenues, Expenses, and Changes in Net Assets, 3) Statement of Cash Flows, and 4) Notes to Financial Statements. This report also contains information in addition to the basic financial statements.

The Statement of Net Assets presents information on all of the NSCS's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the NSCS is improving or deteriorating.

The Statement of Revenues, Expenses, and Changes in Net Assets presents information showing how the NSCS's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The Statement of Cash Flows presents the NSCS's flows of cash by defined categories. The primary purpose of the Statement of Cash Flows is to provide information about the NSCS's cash receipts and payments during the year.

The Notes to Financial Statements provide additional information that is essential to a full understanding of the data provided in the financial statements.

FINANCIAL ANALYSIS OF THE NSCS AS A WHOLE

The NSCS includes Chadron State College (CSC), Peru State College (PSC), Wayne State College (WSC), and the NSCS Office in Lincoln. The designation as a single entity reflects the general governing authority of the Board of Trustees, including the authority to distribute the State appropriation among the Colleges and the NSCS Office.

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED

(Continued)

The audit for the fiscal year ended June 30, 2012, includes information on the Nebraska State Colleges Facilities Corporation, a non-profit corporation statutorily created to allow the NSCS to finance building projects of the Board of Trustees of the Nebraska State College System on any of its campuses, through the issuance of notes, bonds, or other obligations. The members of the Board of Trustees serve as the officers of the Facilities Corporation. Outstanding bonds issued by the Facilities Corporation are those authorized under LB 605, passed in 2006. Repayment is from legislative appropriations and student fees. The long-term debt of the Facilities Corporation accrues to the NSCS Office, while the assets acquired as the result of renovations and new construction appear as assets at the individual Colleges.

Audit information from the Chadron State Foundation, Peru State Foundation, and Wayne State Foundation is included in the report as well. With implementation of Governmental Accounting Standards Board (GASB) Statement No. 39, the Foundations of the Colleges have been deemed to be component units of the NSCS. Those Foundations' financial statements are presented separately on pages 14 through 16, 19 through 21, and 24 through 26 of this report.

(Continued)

Operating Expenses for the year ended June 30, 2012, amounted to \$101.0 million, compared to \$99.7 million in 2011. Compensation and Benefits accounted for \$59.0 million, or 58.4% of the total; Contractual Services were \$3.7 million; Supplies and Materials, \$12.2 million; Depreciation, \$6.6 million; and Utilities, \$3.8 million. Other Operating Expenses consisted of Scholarships and Fellowships, \$5.6 million; Repairs and Maintenance, \$1.8 million; Communications, \$0.8 million, Food Service, \$5.2 million; and Other Operating Expenses, \$2.3 million.

Operating Expenses

The current year operating loss amounted to \$42.9 million, compared to an operating loss in 2011 of \$42.3 million.

Non-operating revenues consist of State Appropriations and Investment Income.

Non-Operating Revenues

MANAGEMENT'S DISCUSSION AND ANALYSIS – UNAUDITED

(Continued)

The most significant change in the Schedule of Net Assets from the fiscal year ended June 30, 2011, to the fiscal year ended June 30, 2012, is an increase in capital assets, net of \$12.1 million, most of which is related to residence hall renovations at both Peru State and Wayne State and renovations of Carhart Science Building and Hahn Administration Building at Wayne State.

Tuition and Fee income increased \$1.1 million or 4.8%, and Auxiliary Enterprise revenues increased \$1.0 million, or 6.9% from the prior fiscal year. Federal Grants and Contracts decreased \$1.2 million, or 8.1%. State and Private Grants and Contracts each had a slight increase from fiscal year 2011 amounts.

Non-operating Revenues reflect a \$1.9 million or 4.1% decrease in expenditure of State Appropriations and a 15.4% decrease in investment income.

Operating Expenses for the year ended June 30, 2012, increased by \$1.3 million or 1.3%. Within the Operating Expenses category, Compensation and Benefits decreased approximately \$0.4 million. Health insurance premiums remained stable for 2011-2012 with no increase in rates. Utility costs decreased by 3.9%.

CAPITAL ASSET AND DEBT ADMINISTRATION

As of June 30, 2012, the NSCS had recorded \$234.1 million in gross capital assets. During the fiscal year ended June 30, 2012, the investment in buildings and improvements increased by \$11.4 million; the investment in infrastructure increased by \$0.9 million; furniture, fixtures, and equipment increased by \$1.1 million; and construction in progress increased by \$5.2 million. At the end of the fiscal year, the NSCS had \$75.1 million in accumulated depreciation that left \$158.9 million in net capital assets.

At the end of the fiscal year, the NSCS had \$52.9 million in long-term liabilities. These consisted primarily of outstanding bonded indebtedness of \$49.0 million and \$3.5 million in accrued compensated absences. Additional debt of \$8.8 million was issued and previously existing bond obligations were reduced by \$2.5 million.

In May 2012, \$8.8 million in revenue bonds were issued under the NSCS Master Resolution to refund Series 2002 bonds for WSC and PSC. Refunding of these Series 2002 bonds will result in a present value savings of \$1.5 million to the Colleges.

Several construction projects have been completed at the Colleges, including Phase II of the WSC Carhart Science renovation project. Phase II was completed using College cash funds and private funds. The final phase of the Carhart Science renovation is currently underway with funding from the LB 309 building renewal task force, College cash funds, and private funds. The WSC Pile Hall renovation project was completed using proceeds from the issuance of revenue bonds and the PSC Morgan Hall, also funded from the issuance of revenue bonds, was substantially complete on June 30, 2012. The renovation of the WSC Willow Bowl was in

progress and planning was nearing completion on several projects, including the CSC Rangeland Center Phase I, the CSC Armstrong Gymnasium renovation and addition, and the PSC Oak Bowl renovation through various funding sources, including State appropriations, the LB 309 building renewal task force, College cash funds, and/or privately raised funds.

All projects using bond proceeds from LB 605 have been completed, except for a small amount of funding for the CSC Administration building renovation project. While construction work on the project is complete, some funds remain in the project that are reserved for artwork and final miscellaneous expenditures. Various deferred repair and fire and life safety upgrades are in progress at all three Colleges.

See the Notes to Financial Statements for additional discussion of capital assets and long-term liabilities.

ECONOMIC OUTLOOK AND SUBSEQUENT EVENTS THAT WILL AFFECT THE FUTURE

State funding for the NSCS is relatively stable for the 2011-2013 biennium. The Governor and Legislature approved state funding for the NSCS at \$45,450,893 for 2012-2013, an increase of 1.3%. During the 2012 legislative session, the Legislature passed LB 968, which authorized the allotment of \$6.7 million for construction and renovation of the Armstrong Gymnasium at CSC. The release of the funds was contingent upon evidence CSC received a minimum of \$2.0 million from private or other funds to meet project costs in excess of this appropriation. This requirement has been met. In addition, LB 968 authorized \$7.5 million for PSC to undertake renovation of and/or improvements to the Oak Bowl. Of this amount \$5.0 million is available immediately and \$2.5 million is available when PSC provides evidence that a minimum of \$1.5 million from private or other funds, or non-State in-kind services, materials, or property has been received by the NSCS to meet project costs in excess of the appropriation contained in the LB.

The Board of Trustees increased tuition rates for 2012-2013 by 3.5%.

In accordance with the NSCS Bargaining Unit agreements for 2011-2013, faculty and professional staff will receive a 1% increase for 2012-2013. Support staff will receive a 1% increase, while maintaining longevity increases.

In addition to receiving notification of a 3% premium increase in health insurance rates for 2012-2013, the NSCS has also been notified that premium rates for the 2013-2014 year will increase an additional 6.25%.

Enrollment at the State Colleges (annual FTE) remained relatively stable for 2011-2012. Fall enrollments are also expected to remain stable for 2012-2013. The NSCS continues to engage in an increased emphasis on enrollment management and marketing.

The NSCS expects to issue revenue bonds, not to exceed \$8 million, in December 2012 with closing in early January 2013 for projects at CSC. Bond proceeds from this 2013 issue will be used to replace the West Court apartments and the roofs on Andrews Hall, Kent Hall, Edna Work Hall, Edna Work Wing, and the east side of the Student Center.

NEBRASKA STATE COLLEGE SYSTEM
(A COMPONENT UNIT OF THE STATE OF NEBRASKA)

NOTES TO FINANCIAL STATEMENTS

For the Fiscal Year Ended June 30, 2012

1. Summary of Significant Accounting Policies

Organization

The Nebraska State College System (NSCS) is a governmental institution established under and governed by the laws of the State of Nebraska. The NSCS operates under the jurisdiction of the Board of Trustees of the Nebraska State Colleges. The NSCS includes Chadron State College (CSC), Peru State College (PSC), Wayne State College (WSC), the NSCS Office, and the Nebraska State Colleges Facilities Corporation (a blended component unit). The NSCS is a component unit of the State of Nebraska (State) because it is financially accountable to the State. The financial statements include all funds of the NSCS. The major accounting principles and practices followed by the NSCS and its separately reported foundation component units are presented below to assist the reader in evaluating the financial statements and accompanying notes.

Reporting Entity

The NSCS has considered all potential component units for which it is financially accountable and other organizations that are fiscally dependent on the NSCS, or the significance of their relationship with the NSCS is such that exclusion would be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the NSCS to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the NSCS.

As required by Generally Accepted Accounting Principles (GAAP), these financial statements present the NSCS and its component units. The component units are included in the NSCS reporting entity because of the significance of their operational or financial relationships with the NSCS.

Blended Component Unit

The Nebraska State Colleges Facilities Corporation (Corporation) is a nonprofit corporation incorporated in 1983 to finance the repair or construction of buildings or the acquisition of equipment for use by the State Colleges. This component unit is included in the NSCS's reporting entity because of the significance of its operational or financial relationships with the NSCS. This component unit is an entity that is legally separate from the NSCS but is so intertwined with the NSCS that it is, in substance, the same as the NSCS. Debt of the Corporation is expected to be repaid entirely or almost entirely with resources from the NSCS. Management of the NSCS also has operational responsibility for the activities of the Corporation. The Corporation's balances and transactions are blended into the accompanying financial statements and reported in a manner similar to the balances and transactions of the NSCS itself.

1. Summary of Significant Accounting Policies (Continued)

Discretely Presented Component Units

In implementing GASB Statement No. 39, the State College Board of Trustees determined Chadron State, Peru State, and Wayne State Foundations (Foundations) are legally separate, tax-exempt nonprofit foundations incorporated in the State of Nebraska. The Foundations act primarily as fund-raising organizations to supplement the resources available to each Foundation's respective College in support of its programs. Although the Colleges do not control the timing or amount of receipts from the Foundations, the majority of resources or income the Foundations hold and invest is restricted to the activities of each Foundation's respective College by its donors. Because these restricted resources held by the Foundations can only be used by, or for the benefit of their respective Colleges, the Foundations are considered component units of the NSCS and are discretely presented on separate pages in this report.

The Foundations report under Financial Accounting Standards Board (FASB) standards, including FASB Statement No. 117, *Financial Reporting for Not-for-Profit Organizations*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition and presentation features. No modifications have been made to the Foundations' audited financial information as it is presented (see Note 12).

During the year ended June 30, 2012, Chadron State, Wayne State, and Peru State Foundations distributed \$650,563, \$3,158,393, and \$561,429, respectively to their Colleges for both restricted and unrestricted purposes. Separate audit reports were issued by each foundation and can be obtained from their respective administrative offices or by contacting the Nebraska State College System at P.O. Box 94605, Lincoln, Nebraska 68509-4605.

Basis of Accounting and Presentation

The NSCS statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by GASB. GASB issued Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*. The NSCS follows the "business-type" activities reporting format of GASB Statement No. 34. This reporting format requires the following elements:

- Management's Discussion and Analysis
- Basic Financial Statements:
 - Statement of Net Assets

NEBRASKA STATE COLLEGE SYSTEM
(A COMPONENT UNIT OF THE STATE OF NEBRASKA)

NOTES TO FINANCIAL STATEMENTS

(Continued)

1. Summary of Significant Accounting Policies (Continued)

- Statement of Revenues, Expenses, and Changes in Net Assets
- Statement of Cash Flows
- Notes to Financial Statements

The NSCS has the option to apply all FASB pronouncements that were issued after November 30, 1989, unless the FASB pronouncement conflicts with or contradicts a GASB pronouncement. The NSCS has elected not to apply FASB pronouncements issued after the applicable date.

The financial statements of the NSCS have been prepared on the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated non-exchange transactions (principally Federal and State grants and State appropriations) are recognized when all applicable eligibility requirements are met. Internal activity and balances are eliminated in preparation of the financial statements unless they relate to services provided and used internally. Operating revenues and expenses include exchange transactions and program-specific, government-mandated non-exchange transactions. Government-mandated non-exchange transactions that are not program specific (such as State appropriations), investment income, and interest on capital asset-related debt are included in non-operating revenues and expenses. The NSCS first applies restricted net assets when an expense or outlay is incurred for purposes for which both restricted and unrestricted net assets are available.

Unrestricted Net Assets – Net assets not subject to stipulation including designated departmental balances, encumbrances, and working capital funds.

Restricted Net Assets – Net assets restricted by creditors, grantors, or contributors and includes grant and research funds, student loan programs, funds for plant construction, and debt service on bond obligations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses, and other changes in net assets during the reporting period. Actual results could differ from those estimates.

NEBRASKA STATE COLLEGE SYSTEM
(A COMPONENT UNIT OF THE STATE OF NEBRASKA)

NOTES TO FINANCIAL STATEMENTS

(Continued)

1. Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

The NSCS cash and cash equivalents are stated at fair value. Cash and cash equivalents held by the Nebraska State Treasurer are deposited on a pooled basis in a State fund. Income earned by the pool is allocated to the NSCS based upon average daily balances. From time to time, the Nebraska State Investment Officer, as allowed by statute, participates in securities lending transactions, which makes use of amounts on deposit from the NSCS. Securities lending transactions cannot be specifically identified to amounts on deposit from the NSCS and, as such, are not included in the financial statements for the year ended June 30, 2012.

The NSCS considers all liquid investments with original maturities of three months or less to be cash equivalents. At June 30, 2012, cash equivalents consisted primarily of money market funds.

Income Tax Status

The NSCS is a State agency established under and governed by the laws of the State of Nebraska. As such, NSCS is exempt from State and Federal income taxes.

Investments and Investment Income

NSCS investments, including those held by a trustee, are carried at fair value. Fair value is determined using quoted market prices.

Investment income consists of interest income and the net change for the year in the fair value of investments carried at fair value.

Accounts Receivable

The NSCS's accounts receivable consist of tuition and fee charges to students and charges for auxiliary enterprise services provided to students, faculty, and staff. Accounts receivable are recorded net of estimated uncollectible amounts. The allowance for uncollectible amounts was \$710,535 at June 30, 2012, and is identified by College as follows:

WSC	\$	197,915
CSC	\$	366,000
PSC	\$	135,019
NSCS Office	\$	11,601

NEBRASKA STATE COLLEGE SYSTEM

NOTES TO FINANCIAL STATEMENTS

(Continued)

1. Summary of Significant Accounting Policies (Continued)

Deferred Bond Issue Costs

The NSCS's bond issue costs incurred on the revenue bond issues have been deferred and are being amortized over the life of the bonds using the effective interest method. Total amortization for the year ended June 30, 2012, was \$86,699, and is identified by College as follows:

WSC	\$	34,305
CSC	\$	12,395
PSC	\$	3,576
NSCS Office	\$	36,423

Inventories

The NSCS's inventories, consisting mainly of expendable supplies, are stated at the lower of cost or market. Cost is determined using the first-in, first-out (FIFO) method.

Loans to Students

The NSCS makes loans to students under the Federal Perkins Loan Program; also, small temporary loans are provided to students from the WSC Foundation. Such loans receivable are recorded net of estimated uncollectible amounts. The allowance for uncollectible loans netted against loans to students was \$186,291 at June 30, 2012, and is identified by College as follows:

WSC	\$	104,291
CSC	\$	82,000

Capital Assets

The NSCS's capital assets are recorded at cost as of the date of acquisition, or fair value at the date of donation if acquired by gift. Generally, equipment that has a cost in excess of \$5,000 at the date of acquisition and has an expected useful life of two or more years is capitalized. Also, all land, buildings, infrastructure, and construction in progress are capitalized. Art objects, specimens, artifacts and collections, including library materials, are expensed so long as the items meet three conditions in accordance with GASB 34. For assets purchased after July 1, 2010, depreciation/amortization is computed using the straight-line method over the estimated useful life of each asset beginning with the month of purchase. Prior to July 1, 2010, depreciation/amortization was computed using the straight-line method over the estimated useful life of each asset, with one-half of one year's depreciation/amortization taken in the first and last years of the asset life. The following estimated useful lives are being used by the NSCS:

Buildings and improvements	20 – 50 years
Infrastructure	10 – 50 years
Furniture, fixtures, and equipment	3 – 10 years

Compensated Absences

The NSCS's policies permit most employees to accumulate vacation benefits. Staff earn 12 to 25 days of vacation each year and may accrue vacation up to the maximums established in Board policy and/or in the respective bargaining agreements. An employee's accrued vacation is paid out to the employee upon termination. Expense and the related liability are recognized as vacation benefits when earned whether the employee is expected to realize the benefit as time off or cash. In addition, professional and support staff receive a cash payment of one-fourth of accrued sick leave upon retirement from the NSCS. Expense and the related liability for sick leave benefits are recognized when earned to the extent the employee is expected to realize the benefit in cash determined using the termination payment method. Sick leave benefits expected to be realized as paid time off are recognized as an expense when the time off occurs.

Deferred Revenue

Deferred revenue represents unearned student tuition and fees and advances on grants and contract awards for which the NSCS has not met all of the applicable eligibility requirements.

Classification of Revenues

The NSCS has classified its revenues as either operating or non-operating revenues according to the following criteria.

Operating revenues – Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship allowances, (2) sales and services of auxiliary enterprises, and (3) interest on student loans.

Non-operating revenues – Non-operating revenues include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, and other revenue sources that are defined as non-operating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as State appropriations and investment income.

1. Summary of Significant Accounting Policies (Concluded)

Scholarship Discounts and Allowances

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship allowances and institutional waiver allowances in the Statement of Revenues, Expenses, and Changes in Net Assets. Such allowances are the difference between the stated charge for goods and services provided by the NSCS, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other Federal, State, or non-governmental programs, are recorded as operating revenues in the NSCS's financial statements. To the extent revenues from such programs are used to satisfy tuition and fees and other student charges, the NSCS has recorded a scholarship allowance.

The NSCS has elected to adopt, for calculation of scholarship allowances, an allocation methodology provided in the National Association of College and University Business Officers (NACUBO) industry guidance (student institutional waivers, which are also netted similar to scholarship allowances continue to be based on actual contra-account financial activity). The scholarship allowances and institutional waivers on tuition and fees and auxiliary enterprises for the year ended June 30, 2012, as calculated under the NACUBO method, were \$10,891,736 and \$2,617,839, respectively and are identified by College as follows:

		Tuition and Fees		Auxiliary Enterprises
WSC	\$	4,389,661	\$	1,184,666
CSC	\$	4,232,164	\$	819,105
PSC	\$	2,269,911	\$	614,068

2. Deposits, Investments, and Investment Return

Deposits

Per Board policy and State Statute, all money received by the NSCS shall be paid over to the State Treasurer, except that each College may retain in its possession a sum to make settlement and equitable adjustments with students so entitled, to make payments for day-to-day operations calling for immediate payment, and to provide for contingencies. All funds not paid over to the State Treasurer shall be maintained in an interest-bearing account such as a money market fund account. All deposits in local banks are to be secured by FDIC insurance or, if over the maximum of FDIC insurance, by bank-pledged securities.

2. Deposits, Investments, and Investment Return (Continued)

All of the NSCS's deposits are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits exceeding the Federal depository insurance coverage level are collateralized with securities held by the NSCS's agents in the unit's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. By State statute, the State Treasurer is required to ensure that all State funds are either insured by Federal Deposit Insurance Corporation (FDIC), collateralized by securities held by the cognizant Federal Reserve Bank, or invested in U.S. government obligations. The NSCS's deposits with the State Treasurer are pooled with the funds of other State agencies and then, in accordance with statutory limitations, deposited in banks or invested as the State Treasurer may determine. Interest on funds held by the State Treasurer is periodically disbursed to the participating agencies. These funds are considered to be cash and cash equivalents which are available for expenditures as needed.

At June 30, 2012, cash and cash equivalents of \$44,427,144 on the Statement of Net Assets represents the NSCS's equity position in the State Treasurer's Short-Term Investment Pool (STIP). The bank balance of these STIP funds was \$44,766,832. Additional information on the deposit and investment risk associated with the State Treasurer's Investment Pool is included in the State of Nebraska's Comprehensive Annual Financial Report (CAFR). An electronic version of this report is available by accessing the Nebraska Auditor of Public Accounts home page www.auditors.nebraska.gov and clicking "Reports".

Cash on hand at June 30, 2012 was \$5,350. The carrying amount of the NSCS's deposits not with the State Treasurer was \$1,104,604 and the bank balance was \$1,090,029. The bank balance at June 30, 2012, was entirely covered by FDIC and collateral held either in the NSCS's name or by the pledging institution's agent in other than the NSCS's name. State law requires collateralization of all deposits with Federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. agencies and instrumentalities of the State of Nebraska; or a surety bond having an aggregate value at least equal to the amount of the deposits. No legal opinion has been obtained regarding the enforceability of any of the collateral arrangements. The NSCS has no policy regarding custodial credit risk for deposits.

Investments

Management of the assets of the Facilities Corporation and the revenue bond program are delegated to the bond trustees appointed by the NSCS Board of Trustees. Funds held by the bond trustees are invested in direct general obligations of the United States of America as outlined in the bond indentures.

At June 30, 2012, the NSCS's investment balances, which had weighted average maturities of 32-35 days, had fair values as follows:

Investment Type		
Other Investments		
U.S. Treasury Fund	\$	16,644,398
Government Money Market Fund		2,024,778
		\$ 18,669,176

Interest Rate Risk. The NSCS does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The NSCS may legally invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agencies and instrumentalities and in bank repurchase agreements. The NSCS's investments were rated as follows:

	Fair Value	Quality Ratings		
		AAA	AA	Unrated
U.S. Treasury Fund	\$ 16,644,398	\$ 16,644,398	\$ -	\$ -
Government Money Market Fund	2,024,778	2,024,778	-	-
	\$ 18,669,176	\$ 18,669,176	\$ -	\$ -

Concentration of Credit Risk. The NSCS places no limit on the amount that may be invested in any one issuer. Of NSCS's investments, 89% are in U.S. Treasury Funds and 11% are in Government Money Market Funds.

Custodial Risk. For an investment, custodial risk is the risk that, in the event of failure of the counterparty, the NSCS will be able to recover the value of its investments that are in the possession of an outside party. The NSCS does not have a formal policy for custodial credit risk. All securities are held by the investment's counterparty, not in the name of the NSCS.

Termination Benefits

The NSCS has two programs for support staff in the Nebraska Association of Public Employees Local 61 of the American Federation of State, County, and Municipal Employees (NAPE/AFSME) bargaining unit and support staff excluded from the NAPE/AFSME bargaining unit which must be accounted for under GASB Statement No. 47, *Accounting for Termination Benefits*, the Voluntary Retirement Settlement Program and the Early Retirement Incentive Program. Under the *voluntary retirement settlement program*, employees who are 55 years of age or more on July 1, of the year in which he or she chooses to retire, and have ten or more years of consecutive service within the NSCS will be paid one-quarter of their final year base salary in 12 equal monthly installments following termination of employment. In addition, employees will be permitted to remain in the group medical and dental insurance plan offered retirees by Blue Cross/Blue Shield at the time of the employee's retirement. The NSCS will pay the employee's health/dental insurance (State and employee burden) costs for the 12-month period following termination of employment. If the retired employee reaches the age of 65 at any time during the 12 month period, at which time eligibility to participate in the Blue Cross/Blue Shield retiree plan ceases, the NSCS will pay an amount equivalent to

the full cost of the 65 Gold Plus Medicare Supplemental Plan or the Retired BlueSenior Classic Plan offered by Nebraska State Education Association (NSEA) for the payout period remaining. Under the current bargaining agreement and Board Policy, this plan was only available to those employees who retired on June 30, 2012. Similar voluntary retirement settlement program were also offered to support staff in the NAPE/AFSCME bargaining unit who retired on July 1, 2009, or June 30, 2010. Under the *early retirement incentive program*, employees who have completed at least ten years of continuous service within the NSCS and are 60 years of age or older will be paid premiums in the group medical and dental health insurance program offered retirees by Blue Cross Blue Shield at the time of the eligible employee's retirement. The payment of premium will continue until the retired employee becomes eligible for coverage under the Federal Medicare program, at which time the paid premiums shall cease.

At June 30, 2012, eight employees at WSC, three employees at PSC, and four employees at CSC were participating in the NSCS's voluntary/early retirement programs. Liability amounts associated with these retirements are shown below. Liability amounts are reflected in the Accrued Compensated Absences line item on the Statement of Net Assets, the Combining Schedule of Net Assets, and the footnote amount above. Nebraska State Colleges Facilities Corporation Bonds

In August 2006, the Nebraska State Colleges Facilities Corporation authorized the issuance of \$21,915,000 of Deferred Maintenance Bonds, Series 2006. Proceeds are used to finance the construction of certain renewal and renovation projects at each of the three Colleges. This bond issue is a general obligation of the Nebraska State College Facilities Corporation, which is a separate legal entity that is not subject to State constitutional restrictions on the incurrence of debt, which may apply to the State itself. The financial resources used to repay the bonds are appropriations and special student fees. The bonds bear interest payable semiannually, at rates of 3.55% to 5.00% and are due in semiannual installments, which began January 15, 2007. Principal maturities began July 15, 2007, and continue until 2020.

PSC Loan Obligation

In May 2007, PSC received a loan from the Peru State College Foundation to finance the renovation of the Al Wheeler Activity Center. The loan is a general obligation of PSC. The loan is not an obligation of the State of Nebraska, and no tax funds shall be appropriated for payment of principal and interest. The loan bears interest payable annually at the rate of 3.50% and is due in annual installments, which began May 1, 2008. Principal maturities began May 1, 2008, and continue until 2019.

Revenue Bonds, Series 2002 were called on July 2, 2012, using proceeds from the issuance of Revenue Bonds, Series 2012. Of the year ending June 30, 2013, outstanding principal and interest amounts noted above, \$2,760,000 and \$65,384, respectively, related to PSC Revenue Bond, Series 2002B and \$6,180,000 and \$146,325, respectively, related to WSC Revenue Bond, Series 2002A.

The bond resolutions of the Nebraska State Colleges Facilities Corporation Bonds, the Refunding Bonds, and the Revenue Bonds specify the funds that need to be established, the required transfers between funds, and the maximum maturity limits for the funds' investments. The bond resolutions also contain certain covenants, including compliance with a ratio of net revenues to debt service. At June 30, 2012, the NSCS was in compliance with these requirements.

5. Capital and Operating Leases

The State of Nebraska, through the Department of Administrative Services (DAS) – Accounting Division, has a Master Lease Agreement to be used by various agencies to purchase equipment. CSC used this financing arrangement to finance the acquisition of a phone system. Installation and equipment related to the phone system totaled \$534,374. All capital leases entered into by CSC expire in 2013.

Future minimum capital lease payments for CSC as of June 30, 2012, were:

2013	\$ 104,123
Total Minimum Payments	<u>104,123</u>
Less: Interest and executor costs	<u>1,598</u>
Present value of net minimum payments	<u>\$ 102,525</u>

Noncancellable operating leases related primarily to equipment expire in various fiscal years through 2014. These leases generally contain renewal options for periods ranging from one to two years and require the NSCS to pay all executory costs (property taxes, maintenance, operating, and insurance).

Future operating lease payments at PSC as of June 30, 2012, were:

2013	\$ 80,120
2014	<u>4,773</u>
	<u>\$ 84,893</u>

6. Pension Plan

The NSCS has a defined contribution retirement plan currently in effect, which was established by the Board of Trustees and may be amended by the Board in accordance with Neb. Rev. Stat. § 85-320 (Reissue 2008). The plan covers all faculty, professional staff, and support staff, and provides investment options and annuity contracts administered by the Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF). The plan provides retirement and death benefits to plan members and their beneficiaries. Benefit provisions are contained in the plan document and may be amended by action of the Board of Trustees. Contribution rates for plan members and the NSCS for 2012, expressed as a percentage of covered payroll, were 4.5% to 6.0% and 8%, respectively. Contributions actually made for the fiscal year ended June 30, 2012, by plan members and the NSCS aggregated were \$2,389,056 and \$3,186,192, respectively.

6. Pension Plan (Concluded)

Membership in the plan was mandatory for all full-time faculty and staff who attained the age of thirty. Voluntary membership is permitted for all full-time faculty and staff upon reaching the second anniversary of their employment and the attainment of age twenty-five. The plan benefits are fully vested at the date of contribution.

The NSCS also sponsors a supplemental retirement annuity (SRA) plan and 457 deferred compensation supplemental plan. Plan members contributed \$861,338 to the SRA and \$73,971 to the 457 plan in 2012. The NSCS does not contribute to these supplemental plans.

7. Risk Management

The NSCS is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; and natural disasters. Responsibility for the coordination of a risk and insurance management program for the NSCS is assigned to the Chancellor. The responsibility for the development and implementation of the risk and insurance management program is assigned to each of the Colleges' Presidents. Mechanisms for identifying risks and for taking appropriate action to eliminate, abate, transfer, or retain these risks is also the responsibility of each College. DAS – Risk Management Division is responsible for maintaining the self-insurance program for workers' compensation along with the motor vehicle liability insurance.

The NSCS has chosen to purchase insurance for:

- A. Health care and life insurance for eligible employees.
- B. General liability coverage, with limits ranging from \$1,000,000 per occurrence to \$5,000,000 in aggregate.
- C. Employee benefits liability, with a limit of \$1,000,000 per each employee and \$1,000,000 annual aggregate.
- D. Director and officer liability, with a limit of \$2,000,000 and a self-insured retention of \$100,000.
- E. Real and personal property through the Midwest Higher Education Compact's (MHEC) property program on a blanket basis for losses up to \$500,000,000, with the program funding a self insurance pool of \$1,000,000 per loss occurrence and a deductible of \$25,000 for the NSCS. Newly acquired properties are covered up to \$100,000,000 for 90 days from the date the insured takes ownership of the property. The perils of flood, earthquake, and acts of terrorism have various coverages and sublimits. Details of these coverages are available from the NSCS.

7. Risk Management (Concluded)

No settlements exceeded commercial insurance coverage in any of the past three fiscal years. Health care insurance is funded through a combination of employee and State contributions. Workers' compensation is funded in the Workers' Compensation Internal Service Fund through assessments on each State agency based on total agency payroll and past experience. Tort claims; theft of, damage to, or destruction of assets; errors or omissions; and natural disasters would be funded through the State General Fund or by NSCS assessments as directed by the Legislature, unless covered by purchased insurance. No amounts for estimated claims have been reported in the NSCS's financial statements.

8. Commitments and Contingencies

Construction Contracts

The Board of Trustees has authorized and approved construction commitments of \$8,452,491 as of June 30, 2012. These projects will be funded through State monies, Foundation gifts, and capital improvement fees. Construction commitments are identified by College as follows:

WSC	\$	6,390,683
CSC	\$	1,283,933
PSC	\$	777,875

Government Grants

The NSCS is currently participating in numerous grants from various departments and agencies of the Federal and State governments. The expenditures of grant proceeds must be for allowable and eligible purposes. Single audits and audits by the granting department or agency may result in requests for reimbursement of unused grant proceeds or disallowed expenditures. Upon notification of final approval by the grant department or agency, the grants are considered closed.

9. Restricted Net Assets

Restricted net assets report resources that are owned by the NSCS, but their use or purpose is restricted. Restricted net assets reported on the Statement of Net Assets are further classified into the following:

Loans represent institutional loans and Federal program loan funds set aside to serve as revolving loan funds for students.

Debt Service represents the remaining Plant, Capital Improvement, Facilities Corporation, and Auxiliary balances not identified as being Invested in Capital Assets, Net of Related Debt.

9. Restricted Net Assets (Concluded)

Other includes \$349,587 in funds set aside by the Board of Trustees for student scholarships and \$1,465,177 in unexpended special project authorizations. The remainder of the *Other* classification consists primarily of a variety of scholarship, student activity, grant, contract, contribution, and gift funds.

10. Joint Venture

On September 14, 2006, the College entered into an interlocal agreement with Northeast Community College (NECC) to build and operate College Center in South Sioux City (CCSSC), Nebraska which offers classes from both NECC and Wayne State College (WSC). CCSSC began offering classes during the fiscal year ended June 30, 2011.

NECC administers the accounts payable related to joint operation and maintenance costs. The first four years, WSC is to reimburse NECC for 50% of these joint costs. In the fifth year joint costs will be prorated based on each College's percentage of total annual student semester credit hours at CCSSC. CCSSC is governed by CCSSC's Administrative Council which is a four member board composed of two appointees from NECC and two appointees from WSC. Operating costs and ownership of land and facilities are shared 50%-50% by NECC and WSC. Either party can terminate the agreement with a one-year notice giving the other party right of first refusal on purchase of the exiting party's interest in the building, contents, and land.

11. Subsequent Event – Bond Redemption

On May 23, 2012, the NSCS advance refunded \$8,940,000 of outstanding PSC and WSC Revenue Bond Series 2002 principal by issuing \$8,750,000 in Series 2012 bonds. The net proceeds of \$8,577,334 from Series 2012 bonds plus an additional \$601,709 were used to redeem of the Series 2002 bonds on the July 1, 2012 call date. The NSCS advance refunded the Series 2002 bonds to reduce its total debt service payments over the next 15 years by \$1,797,001. Bond refunding resulted in an estimated economic gain of \$1,471,734.

The difference between the reacquisition price and the net carrying amount of the old debt will be deferred and amortized over the remaining life of the new debt, which is the same as the life of the refunded debt.

CHADRON STATE FOUNDATION

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities - Chadron State Foundation (the Foundation) is a nonprofit organization incorporated in the State of Nebraska in 1963 to promote the education, scientific, and benevolent purposes of Chadron State College (the College). The Foundation acts largely as a fund-raising organization, soliciting and receiving contributions and pledges on behalf of the College. Assets received by the Foundation are used to acquire equipment to be used by the College, to provide financial aid for college students, or to be otherwise expended for the betterment of the College.

Basis of Accounting - The financial statements of the Foundation have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles. Net assets and revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted net assets- Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets - Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Foundation and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently restricted net assets - Net assets subject to donor-imposed stipulations that they be maintained permanently by the Foundation. Generally, the donors of these assets permit the Foundation to use all or part of the income earned on any related investments for general or specific purposes.

Designation of Unrestricted Net Assets - It is the policy of the Board of Directors of the Foundation to designate appropriate sums of unrestricted net assets to assure adequate reserves are accumulated to help fund specific future events and the general operations of the Foundation. Accordingly, unrestricted net assets of the Foundation are classified and reported as follows:

Operating - The portion of unrestricted net assets that is undesignated and available for the day-to-day operations, support, and management of the Foundation.

CSC General Fund - Represents the annual accumulation of unrestricted gifts of \$4,999 or less received by the Foundation. These funds must first be used to address any operating deficits for the current fiscal year. The remaining balance will be transferred to the initial Fund Balance of the CSC Quasi Endowment.

CHADRON STATE FOUNDATION (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CSC Quasi Endowment - Represents unrestricted gifts designated by the Board of Directors that must adhere to the policies and procedures of Section IV of the Chadron State Foundation Endowment Policy & Guidelines.

Greatest Need - Represents unrestricted gifts and pledges of \$5,000 or more that will be allocated per recommendation of the Development Committee and approved by the Board of Directors. Such recommendations will be based on the initiatives and priorities of the Foundation and, when appropriate, campaign leadership committee. Such recommendations must be approved by the Board of Directors each quarter or per special meetings. Upon approval by the Board of Directors, these gifts and pledges will be accounted for in the appropriate board designated fund. The Board of Directors has designated \$490,000 of this fund balance to Capital Campaign Initiatives.

Cash and Cash Equivalents - For the purposes of the statement of cash flows, the Foundation considers all cash in banks to be cash and cash equivalents. Restricted cash and cash equivalents are limited to use as the Foundation acts as a custodian for clubs and organizations of Chadron State College as further discussed in Note 7.

Investments - Investments are reported at fair value. Fair value is the price that would be received if the Foundation was to sell an asset in an orderly transaction between market participants at the measurement date. Investments are comprised of limited liability investment groups, which invest in debt and equity securities and are carried at fair value determined using the following valuation methods:

- o Securities traded on a national or regional securities exchange are valued at the last sales price if the security is traded on the valuation date.
- o Securities not listed on an exchange or securities in which there were no reported transactions are valued at the mean between the last current closing bid and asking prices.
- o Fixed-income securities are valued at prices obtained from pricing services when such prices are available, subject to review by the respective Fund's investment advisor.
- o Securities or other assets for which reliable recent market quotations are not readily available are valued at fair value as determined in good faith by the managing member of the investment advisors.

Security transactions are accounted for on the date the securities are purchased or sold. Realized gains and losses are calculated using the specific identification method. Dividend income is recognized on the ex-dividend date and interest income is recognized on an accrual basis.

CHADRON STATE FOUNDATION (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contributions - Contributions, including unconditional promises to give, are recorded as made. All contributions are available for unrestricted use unless specifically restricted by the donor. Conditional promises to give are recognized when the conditions on which they depend are substantially met. However, if a restriction is fulfilled in the same time period the contribution is received, the Foundation reports the support as unrestricted. Gifts and contributions are recorded at fair value at the time of donation. Unconditional promises to give due in the next year are recorded at their net realizable value. Unconditional promises to give due in subsequent years are reported at the present value of their net realizable value, using risk-free interest rates applicable to the years in which promises are to be received.

Contributed Materials and Services - The Foundation records various types of in-kind contributions. Contributed services are recognized at fair value if the services received (a) create or enhance long-lived assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation. Contributions of tangible assets are recognized at fair value when received. The amounts reflected in the accompanying financial statements as in-kind contributions are offset by like amounts included in expenses. Total contributed materials and services recognized for the year ending June 30, 2012 and 2011 was \$96,110 and \$94,154, respectively.

Revenue Recognition - The Foundation reports contributions as support when assets are received or when an unconditional promise to give has been made. Allowances are provided for amounts estimated to be uncollectable, based on a history of past write-offs and collections. Accounts are written off as uncollectible at the time management determines that collection is unlikely. Revenue from other sources is recorded as earned.

Property and Equipment - The purchases of property and equipment are recorded at cost. Donations of property and equipment are recorded at their estimated fair value at the date of donation. Such donations are reported as increases in unrestricted net assets unless the donor has restricted the donated assets to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. The Foundation reclassifies temporarily restricted net assets to unrestricted net assets each year for the amount of depreciation expense relating to the donated property and equipment.

Property and equipment are depreciated on a straight-line basis over the estimated useful lives of the assets. When items are disposed of, the cost and accumulated depreciation are eliminated from the records of account, and a gain or loss is reported in the statement of activities. Repair and maintenance charges that do not increase the useful lives of the assets are charged to the change in net assets as incurred.

Property and Equipment (Continued)

Capitalization thresholds (the dollar value above which individual asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets reported in the financial statements are as follows:

	<u>Capitalization Policy</u>	<u>Estimated Useful Life</u>
Land	N/A	N/A
Office Equipment	\$ 1,000	3 – 15 yrs
Rental Property	\$ 1,000	39.5 – 50 yrs

Collections - Collection items acquired either through purchase or donation are not capitalized. Purchases of collection items are recorded as decreases in unrestricted net assets if purchased with unrestricted assets and as decreases in temporarily restricted net assets if purchased with donor restricted assets. Contributions of collection items are not recognized in the statement of activities. Proceeds from disposal are reflected on the statement of activities based on the absence or existence and nature of donor imposed restrictions.

The Foundation has a collection of artwork and other memorabilia that was donated by several supporters of Chadron State College. The collection is on display and is available to those who are interested in studying Nebraska state history. The Foundation has taken steps to ensure that the collection is protected and preserved. It is the policy of the Foundation that proceeds from the sale of any collection items are to be used to purchase additional collection items. Contributions to the collection are not reflected in the accompanying financial statements since the Foundation does not capitalize collections.

Income Tax Status - The Foundation is exempt from income tax under Section 501(c)(3) of the Internal Revenue Code. The Foundation has also been classified as an entity that is not a private foundation within the meaning of Section 509(a)(1) and qualifies for deductible contributions under Section 170(b)(1)(A)(vi).

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Effective July 1, 2008, the Foundation adopted FASB ASC 820-10, *Fair Value Measurements*, which has been applied prospectively as of the beginning of the 2009 fiscal year. FASB ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 – INVESTMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

The Foundation's investments are managed in individual equity and debt portfolios of Limited Liability Company's (LLC's) by an external investment management firm. Each portfolio is made up of individual equity and debt positions in which the Foundation holds a percentage interest similar to a mutual fund. These individual funds are not priced or quoted in an active market (Level 1), but the assets inside of each fund can be priced in an active market under the valuation methods described in Note 1 (Level 2).

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of June 30, 2012 and 2011

NOTE 5 - OTHER ASSETS

The Foundation is the beneficiary of various trusts and estates created by donors, the assets of which are not in the possession of the Foundation. The carrying amounts (which are at fair value) of beneficial interests in trusts and estates are based on values provided by an external investment manager, quoted market values, or actuarial valuations. Net realized and unrealized gains and losses related to beneficial interests are reported as changes in net assets

based on donor stipulations. The Chicoine Trust is payable upon death of the donor and there are no rights within the trust to redirect these funds. The Funkhouser Estate Bequest was finalized in the current fiscal year. The Foundation was notified of two additional estate bequests (Weedon and Gates) in 2012 that are expected to be distributed in the next fiscal year. These bequests were recorded at their estimated fair value as of June 30, 2012. The fair value of the beneficial interests at June 30, 2012 and 2011 were as follows:

NOTE 7 - RELATED PARTIES

The Foundation, in the normal course of business, engages in transactions with Chadron State College. The College has been designated as the beneficiary of the Foundation. The Foundation pays all scholarships and contributions to the College's students and departments.

The Foundation acts as an agent to the clubs and organizations of Chadron State College. It maintains the cash accounts and provides bookkeeping services for these clubs and organizations. At June 30, 2012 and 2011, the restricted cash balance was \$146,369 and \$267,896, respectively. The amount held in endowed investments as of June 30, 2012 and 2011 was \$455,522 and \$454,189 and the total due to other agencies balance was \$206,585 and \$413,423, respectively.

NOTE 8 - ACCOUNTING FOR INVESTMENTS AND ENDOWMENTS

The Foundation follows FASB ASC 958-205-50-1B, which provides guidance on the net asset classification of donor - restricted endowment funds for a nonprofit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). It also requires additional disclosures about an organization's endowment funds (both donor restricted endowment funds and board-designated endowment funds) whether or not the organization is subject to UPMIFA.

Investments - Board-designated Endowment - As of June 30, 2012 and 2011, the Board of Directors had designated \$398,483 and \$260,101, respectively, of unrestricted net assets as a general quasi endowment fund to support the mission of the Foundation. Since that amount resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted net assets.

Gifts assigned to a quasi endowment shall be divided into two separate fund balances. One shall be called the "Initial Fund Balance" and one shall be called the "Quasi Endowment Fund Balance." The balance for either the Initial Fund Balance or Quasi Endowment Fund Balance shall be determined as of June 30th of each fiscal year. The annual payout from each of these fund balances shall be calculated individually as hereinafter stated:

Initial Fund Balance - The Initial Fund Balance for each fiscal year shall consist of the value of all contributions to a quasi endowment. The annual payout from this segment of the quasi endowment shall be set by action of the Finance Committee and ratified by the Foundation Board and shall be consistent with the long term goal of portfolio growth and perpetual support to Chadron State College (CSC). The annual payout from this

NOTE 8 - ACCOUNTING FOR INVESTMENTS AND ENDOWMENTS (CONTINUED)

portion can be up to but not exceed 50% of the fund balance. Any remaining balance after deducting the annual payout shall be transferred by the Foundation to the Quasi Endowment Fund Balance.

Payout from the Quasi Endowment Fund Balance - The annual payout from this segment of the endowment shall be set by action of the Finance Committee and ratified or approved by the Foundation Board consistent with the investment policy and long term goal of portfolio growth and perpetual support of CSC. In accordance with GAAP, the Foundation Board has the discretion to allow payouts from the corpus and principal of a Quasi Endowment Fund Balance. However, the Board has chosen by policy to treat a Quasi Endowment Fund Balance as a Named Endowment and paid out accordingly. See Donor-designated Endowment spending policy.

Investments - Donor Designated Endowments - The Foundation's endowment consisted of approximately 328 individual funds established for a variety of purposes. Its endowment includes both donor-restricted and funds designated by the Board of Directors to function as endowments. As required by GAAP, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Directors of the Foundation has interpreted the Nebraska Uniform Prudent Management of Institutional Funds Act (NUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor - restricted endowment funds absent explicit donor stipulations to the contrary. As a result of the interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of the gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor - restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated from the expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by NUPMIFA. In accordance with NUMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effects of inflation and deflation, (5) the expected total return from the income and the appreciation of investments, (6) other resources of the Foundation, and (7) the Foundation's investment policies.

NOTE 8 - ACCOUNTING FOR INVESTMENTS AND ENDOWMENTS (CONTINUED)

Investment Return Objectives, Risk Parameters and Strategies - The Foundation has adopted investment and spending policies, approved by the Board of Directors, for the endowment assets that attempt to provide long-term support to CSC. Accordingly, the investment philosophy of the Foundation is based on a disciplined, consistent, and diversified approach utilizing multiple asset classes and allows for multiple managers. Their intent is to accommodate styles and strategies considered reasonable and prudent. Given the characteristics of the Foundation, the long-term investment objective for the portfolio is to earn an average total return of at least 8.8% per year. Since 1925, the average annualized return for intermediate government bonds has been 5.3% while large-cap stocks have returned 10.4% per year, gross of fees. A mix of 60% stocks and 40% bonds has averaged 8.8% gross of fees while inflation has averaged 3.0%. If the total return objective is not achieved over a particular measurement period, the shortfall should be explainable in terms of general economic and capital market conditions. A temporary shortfall will not necessarily indicate failure to achieve the long-term objective. However, periods in which the total return is less than 8.8% must be offset by periods in which it is greater than 8.8%. An important objective of the Foundation Board of Directors is to create an investment and spending program that allows for growth of the portfolio balance.

Spending Policy - Distributions from Named Endowment are to be according to the Foundation's Endowment policies. Grant levels are based on the weighted average fund balance, using the adjusted pool of awarding endowments during the past three (3) fiscal years. The distribution approved by the Foundation Board shall not exceed five percent (5.0%) of the weighted average fund balance. Distribution from any individual endowment shall be according to restrictions within that controlling endowment. Distributions from the Quasi Endowment shall be according to its controlling restrictions. In establishing this policy, the Foundation considered the long-term expected return on its investment assets, the nature and duration of the individual endowment funds, many of which must be maintained in perpetuity because of donor-restrictions, and the possible effects of inflation.

Endowment net asset composition by type of fund as of June 30, 2012, is as follows:

NOTE 10 - PERMANENTLY RESTRICTED NET ASSETS

As of June 30, 2012 and 2011, net assets were permanently restricted for the endowment in the amount of \$11,024,187 and \$10,599,003, respectively. The income from the endowment can be used to support Chadron State College. At June 30, 2012 and 2011, the fair value of investments related to the restricted endowment was \$11,306,470 and \$10,107,600, leaving the amount assigned to individual donor restricted endowments required to be maintained in perpetuity with an excess balance of \$282,283 for 2012 and a \$491,403 deficiency for 2011.

NOTE 11 - DEFINED CONTRIBUTION PLAN

The Organization participates in the College's defined contribution plan (the Plan) covering all employees with at least three years of service who agree to make contributions to the Plan. Employees may enroll in the Plan if they are employed full time for 9 out of 12 months of the year. Participation in the Plan is voluntary for employees who are 25 years of age and have been employed at least two years by the Foundation. Participation in the Plan is mandatory for employees over the age of 30. Employees contribute 6% of their salary and the College contributes 8%. Total expenses for the years ended June 30, 2012 and 2011 were \$17,471 and \$17,847, respectively.

NOTE 12 - SUBSEQUENT EVENTS

On August 25, 2012, the Chadron State Foundation board approved named endowment and grant to campus payouts for the 2013-14 academic year. This will result in a liability at December 31, 2012, of \$331,175 for the named endowments and \$85,000 for the grant to campus.

The Foundation will provide the College with \$2 million for the Rangeland Center Project. The Foundation has been notified of the approval of a 1 % interest loan from the Panhandle Rural Electric Membership, PREMA, through the Rural Economic Development Loan Program with the USDA. The conditions of the loan include a 10 year payback period with no penalty for prepayment. The Foundation was also required to obtain a bank guarantee for the PREMA loan to insure any default. First National Bank of North Platte approved the guarantee with an additional 1% interest rate amortized over the life of the loan. The loan will be used as a bridge funding, until all pledges are collected, which will allow Chadron State College to start construction on the \$6.4 million dollar Rangeland Center project.

The Foundation will start transferring dollars to Chadron State College for the Athletic Complex renovation and expansion. The Nebraska Legislature approved \$6.7 million dollars towards the project with the condition of a \$2 million dollar match from the College. The

NOTE A- ACCOUNTING POLICIES

The following summary of certain significant accounting policies of Peru State College Foundation (the Foundation) is presented to assist in understanding the Foundation's financial statements. The financial statements and notes are representations of the Foundation's management who is responsible for their integrity and objectively. These accounting policies have been consistently applied in the preparation of the financial statements. Certain 2010 items have been reclassified in order to conform to 2011 financial statement presentation.

Reporting Entity

The Foundation is a nonprofit foundation incorporated in the State of Nebraska. The purpose of the Foundation is to operate as a charitable and educational foundation for the promotion and support of Peru State College (the College) and its students. The Foundation is governed by a self-perpetuating Board of Directors consisting of volunteer board appointed members, some of whom are significant donors to the Foundation. The Foundation is considered a component unit of Peru State College; therefore, the Foundation's net assets and results of operations are included as a component unit in the Peru State College financial statements.

Basis of Presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958-205 *Presentation of Financial Statements of Not-for-Profit Entities*. Under Codification 958-205, the Foundation is required to report information regarding its financial position and activities according to three classes of net assets - unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets represent resources over which the Board of Directors has discretionary control and are used to carry out the operations of the Foundation in accordance with its bylaws.

Temporarily restricted net assets represent resources subject to donor-imposed restrictions until such time as the restriction is met, whether it is the expiration of a time period or the occurrence of an event. Temporarily restricted net assets are available for various scholarship and departmental expenses for the College.

Permanently restricted net assets represent resources subject to donor-imposed restrictions that do not expire. Earnings from permanently restricted net assets are available for scholarships for qualifying students attending the College.

NOTE A- ACCOUNTING POLICIES - CONTINUED

Basis of Accounting

The financial statements of the Foundation have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables, and other liabilities.

Use of Estimates

These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Public Support and Revenues

Annual campaign contributions are generally available for unrestricted use in the related campaign year unless specifically restricted by the donor.

Grants and other contributions of cash and other assets are recorded as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When donor restrictions expire, that is, when a stipulated time restriction ends or the purpose of the restriction is accomplished, temporarily restricted assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Contributions received with temporary restrictions that are met in the same reporting period are reported as unrestricted support and increase unrestricted net assets.

Endowment contributions and investments are permanently restricted by the donor. Investment earnings available for distribution are recorded as unrestricted net assets. Investment earnings with donor restrictions are recorded as temporarily or permanently restricted net assets based on the nature of the restrictions.

Contributions of donated noncash assets are recorded at their estimated fair values in the period received.

NOTE A- ACCOUNTING POLICIES - CONTINUED

Functional Allocation of Expenses

Directly identifiable expenses are charged to program and supporting services; management and general expenses include those expenses that are not directly identifiable with any other specific function but provide for the overall support and direction of the Foundation.

Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, investments, unconditional promises to give, student loans, notes receivable, accounts payable, accrued expenses, and the long-term liabilities approximate fair value.

Cash and Cash Equivalents

The Foundation considers all investments with a maturity of three months or less to be cash equivalents. The Foundation maintains several bank accounts at financial institutions that are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 at December 31, 2011 and 2010. Cash on these dates did not exceed federally insured limits.

Unconditional Promises to Give

Unconditional promises to give are recorded as receivables and revenues when received. The receivables that are due in the next year are reflected as current promises to give and are recorded at their estimated net realized value. The Foundation regularly reviews the listing of unconditional promises to give to determine collectability.

Student Loans Receivable

Student loans receivable are carried at the original loan amount, less any allowance for doubtful accounts. The Foundation determines the allowance for doubtful accounts by regularly evaluating individual student loan receivables and considering the student's financial condition, credit history, and current economic conditions. Student loans receivable are written off when deemed uncollectible.

Property, equipment and depreciation

The Foundation capitalizes all additions, renewals, and betterments at cost whereas expenditures for maintenance and repairs are expensed as incurred.

NOTE A- ACCOUNTING POLICIES - CONTINUED

Depreciation and amortization is computed over the estimated useful lives of the assets using the straight-line method. Estimated useful lives of the assets are:

	<u>Years</u>
Office Furniture and Fixtures	3-7
Vehicles	5
Rental Property	27.5

Donations of property and equipment are recorded as contributions at their estimated fair value. Such donations are reported as unrestricted contributions unless the donor has restricted the asset to a specific purpose.

Endowments and Investments

The Foundation's investments in Westwood Management Corp. LLC's are valued at Level 2 of the hierarchy of investment valuation, see Note D. Unrealized gains and losses are included in the statement of activities as a change in unrestricted net assets.

The Foundation pools its investments for greater flexibility in managing those investments. When investments are pooled, they lose their specific identification with specific contributions. Thus, the income and unrealized and realized gains and losses are allocated to the pool participants using the market value method. The market value method assigns a number of units to each pool participant based on the relationship of the individual investment to the total investments at the time the investments are pooled.

The Foundation follows the guidance of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) in accounting for endowed assets. UPMIFA permits, subject to donor intent, appropriation for prudent expenditures as determined by the Foundation for the uses, benefits, purposes, and duration of the established endowment fund. The Foundation has determined that maintaining the historical endowed value is prudent for the use of the funds and any appreciation of the endowment is available for the use. The amount of the net appreciation is reported as increases in unrestricted net assets in the statement of activities. Net depreciation in donor-restricted endowments is reimbursed from unrestricted net assets as necessary to replenish the endowment fund to its historic dollar value as established by the Foundation.

The Foundation has adopted investment and spending policies, approved by the Board of Directors, for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while maintaining the purchasing power of these

endowment assets over the long-term. The Foundation's spending and investment policies work together to achieve this objective. The investment policy establishes an achievable return objective through diversification of asset classes. The current long-term return objective is to return 6.5%, net of management fees. Actual returns in any given year may vary from this amount. To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places an emphasis on equity-based investments and fixed income investments to achieve its long-term return objectives within prudent risk parameters.

The spending policy calculates the amount of money annually distributed from the Foundation's various endowed funds, for scholarships and administration. The current spending policy is to distribute an amount at least equal to 4% of a moving four-year average of the fair value of the endowment funds. Accordingly, over the long-term, the Foundation expects its current spending policy to allow its endowment assets to grow at an average rate of 2.5% annually. This is consistent with the Foundation's objective to maintain the purchasing power of endowment assets as well as to provide additional real growth through investment return.

Compensated Absences

Employees of the Foundation are entitled to paid vacation, paid sick, and paid personal time off. Foundation personnel accrue 10 hours of vacation and 8 hours of sick pay per month with a maximum accrual of 35 days vacation and 180 days sick time. The Foundation estimates the amount of compensation for future compensated absences and, accordingly, recognizes the liability as part of accrued compensation in the accompanying financial statements.

Income Taxes

The Foundation is a nonprofit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Foundation has also been classified as an entity that is not a private foundation within the meaning of Section 170(b)(1)(A)(vi). There was no unrelated business income for 2011 and 2010.

The Foundation's federal Exempt Organization Tax Returns (Form 990) for 2008, 2009, and 2010 are subject to examination by the IRS, generally for three years after they were filed.

NOTE B - CONCENTRATION OF CREDIT RISK

Financial instruments that are exposed to concentrations of credit risk consist of cash, unconditional promises to give, student loans receivable, and investments. The Foundation's cash and investments are in high quality institutions and companies with high credit ratings. The Foundation performs ongoing evaluations of outstanding credit balances and collectability. Cash and investments are based on quoted market prices. Unconditional promises to give and student loans are carried at estimated net realizable values.

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NEBRASKA STATE COLLEGE SYSTEM
(A COMPONENT UNIT OF THE STATE OF NEBRASKA)

NOTES TO FINANCIAL STATEMENTS

(Continued)

PERU STATE FOUNDATION (Continued)

NOTE D -FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets and liabilities that the Foundation has the ability to access at the measurement date.

Level 2 - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable; and inputs that are derived principally from or corroborated by observable market data.

All the Foundation's investments, see Note C, are considered to be Level 2 investments. The fair value of the Foundation's investments in the Westwood LLC's (formerly MGA, LLC's) is determined by each LLC based on the fair value of the underlying securities held by the LLC. The fair value of the LLC's is determined based on the closing prices of the underlying securities on various actively traded markets. Unit values are determined by dividing the fund's net assets at fair value by the number of units outstanding at the valuation date.

Level 3 - Inputs are unobservable inputs for the asset or liability.

NOTE E –NOTES RECEIVABLE

Notes receivable consists of the following at December 31:

NOTE F -REFUNDABLE DEPOSITS

Beginning in 2003, the Bobcat Athletic Association, Peru Booster Club, Peru Student Organization, and Farmer to Farmer Fund had entered into intermediary agreements with the Foundation. Funds are being held in cash accounts by the Foundation as an agent of these organizations to be disbursed at their request. The funds are not owned by the Foundation and are not pooled with the Foundation's investments. The liability included in the accompanying statements of financial position represents the amount due to these entities totaling \$82,384 and \$82,633 as of December 31, 2011 and 2010, respectively.

NOTE G -GIFT ANNUITIES

The Foundation has entered into agreements with donors in which the donor contributes cash to the Foundation in exchange for the distribution of fixed monthly or quarterly amounts to the donor until the death of the donor. The gift annuity liability of \$112,609 and \$115,438 as of December 31, 2011 and 2010, respectively, represents the present value of the future cash flows expected to be paid to the donors. The annuities payable are discounted at 1.35% (7-year Treasury Bill rate at December 31, 2011) and are due in monthly and quarterly installments.

NOTE K- PENSION PLAN

The College sponsors a defined contribution retirement pension plan, Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA/CREF), in which the Foundation's employees are allowed to participate. The plan covers all employees upon attaining 30 years of age and having two years of college service. Employee contributions are limited to 6% of gross salary. The Foundation reimburses the College for the retirement fund contributions along with the salary reimbursements. The Foundation's contributions to the plan totaled \$17,698 and \$18,942 for the years ended December 31, 2011 and 2010, respectively, and is included in salaries and wages on the statement of functional expenses.

NOTE L- CONCENTRATIONS

During 2011, the Foundation received approximately 75% of its contributions from one estate. During 2010, the Foundation received approximately 72% of its contributions from four individuals and estates.

NOTE M- SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 11, 2012, the date which the financial statements were available to be issued, and has concluded there were no events or transactions occurring between year end and this date that would require recognition or disclosure in the financial statements.

WAYNE STATE FOUNDATION

NOTE A - FOUNDATION

The Wayne State Foundation (Foundation) is an independent, non-profit corporation established for the sole purpose of securing private gifts for the benefit and promotion of Wayne State College (College). The Foundation receives contributions from various contributors and provides funding to the College to assist it in fulfilling its mission of educating students. Examples of initiatives funded by the Foundation include scholarships, capital improvements, faculty grants, equipment, and athletic programs. The Foundation funds and publishes, in co-operation with the College, the *Wayne State Magazine* and other communications sent to alumni and friends.

See Note S regarding joint venture with Northeast Community College.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. Assets and liabilities are presented in the order of liquidity on the statement of financial position. Net assets, support and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted Net Assets - Net assets that are not subject to donor imposed stipulations.

Temporarily Restricted Net Assets - Net assets subject to donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently Restricted Net Assets - Net assets subject to donor imposed stipulations that they be maintained permanently by the Foundation. Generally, earnings from endowed contributions and investments are restricted for specific purposes.

Prior-Year Summarized Comparative Information

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the years ended June 30, 2011 and 2010, from which the summarized information was derived.

WAYNE STATE FOUNDATION (CONTINUED)

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Contributions

Contributions, including unconditional promises to give, are recorded as made. All contributions are available for unrestricted use unless specifically restricted by the donor. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Unconditional promises to give due in the next year are recorded at their net realizable value. Unconditional promises to give due in subsequent years are reported at the present value of their net realizable value, using risk-free interest rates applicable to the years in which the promises are to be received.

Donations of property are recorded as support and carried at their estimated fair value at the date of the gift. Such donations are reported as unrestricted support unless the donor has restricted the donated asset for a specific purpose.

Pervasiveness of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Foundation considers checking accounts to be cash equivalents. Commonfund investments are not considered cash and cash equivalents.

Inventory

Inventory consists of WSC Centennial Books produced in conjunction with Wayne State College's centennial year. The inventory is carried at the estimated amount that can be realized from future sales of the books.

Property

Property is recorded at cost or estimated value at the date of purchase or contribution. Additions in excess of \$2,500 are capitalized. Expenditures for repairs and maintenance are expensed as incurred. Assets are being depreciated using the straight-line method with estimated useful lives of 25-40 years. Depreciation expense was \$6,255 for the year ended June 30, 2012.

WAYNE STATE FOUNDATION (CONTINUED)

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Investments

The Foundation's investments are composed of money market accounts, certificates of deposits, and mutual funds including common trust funds, either at area financial institutions or investment brokerage firms. Investments are stated at fair market value. Fluctuations in fair values are reflected in the period they occur. Certain funds have been pooled for ease of management and to achieve greater diversification in investments.

Income Taxes

The Foundation qualifies as a tax-exempt Foundation, other than a private foundation, under Section 501(c)(3) of the Internal Revenue Code and, therefore, has no provision for federal income taxes.

The Foundation files required income tax returns in the U.S. federal jurisdiction and various states. With few exceptions, the Foundation is no longer subject to U.S. federal, state, and local income tax examinations by tax authorities for years before 2008. The Foundation has concluded no material uncertain tax positions have been taken on any open tax returns. For the current year the Foundation believes all tax positions are fully supportable by existing Federal law and related interpretations and there are no uncertain tax positions to consider.

Collections

Collections, acquired through purchases and contributions since the Foundation's inception, are not recognized as assets on the statement of financial position. Purchases of collection items are recorded as decreases in unrestricted net assets in the year in which the items are acquired, or as temporarily or permanently restricted net assets if the assets used to purchase the items are restricted by donors. Contributed collection items are not reflected on the financial statements. Proceeds from deaccessions or insurance recoveries are reflected as increases in the appropriate net asset classes.

Advertising

The Foundation expenses advertising costs as they are incurred. Advertising expenses for the year ended June 30, 2012, was \$10,923.

Subsequent Events

In the normal course of preparing the Foundation's financial statements, management reviews events that occur after the statement of financial position date (June 30, 2012) for potential recognition or disclosure in the financial statements. Management has evaluated subsequent events through September 11, 2012, which is the date the financial statements were available to be issued.

Market Risk from Concentration of Investments with Advisor

At June 30, 2012 the Foundation had investments (including reserved for annuities) with Common fund of \$12,970,327, which represents approximately 83% of investments.

Fair Value Measurement

The Foundation adopted Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820-10-35, “Fair Value Measurement,” effective July 1, 2008. FASB ASC 820-10-35 established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1: quoted prices in active markets for identical investments.
- Level 2: other significant observable inputs (including quoted prices for similar investments in active markets, interest rates and yield curves, prepayment speeds, credit risks, etc.)
- Level 3: significant unobservable inputs (including the Foundation’s own assumptions in determining the fair value of investments)

The following is a summary of the inputs used as of June 30, 2012, in valuing the Foundation’s investments:

<u>June 30, 2012</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

The Foundation has entered into several annuity agreements whereby the donor transfers either cash, property, or both and, in consideration, the Foundation agrees to pay the donor a stated dollar amount annually for the remainder of his/her life, at which time the remaining assets are available for their unrestricted (or restricted if so designated by the donor) use by the Foundation. The Foundation records the assets at fair value when received, the liability is recorded at the present value of expected future cash flows to be paid to the annuitant with the difference recorded as an unrestricted or restricted contribution. The liabilities are computed using discount rates varying from 2.4% to 9.6% and life expectancies of annuity beneficiaries based on IRS tables.

NOTE K - PERMANENTLY RESTRICTED NET ASSETS

Permanently restricted net assets are endowment funds restricted in perpetuity to provide funding for various scholarships and programs annually. In addition permanently restricted net assets include assets being held to fund future endowments.

NOTE L - ENDOWMENT FUNDS

The Foundation's endowment consists of approximately 302 individual funds established for a variety of purposes. Its endowment includes both donor restricted funds and funds designated by the Executive Committee to function as endowments. As required by generally accepted accounting principles, net assets associated with endowment funds including funds designated by the Executive Committee to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Executive Committee of the Foundation has interpreted the Nebraska Uniform Prudent Management of Institutional Funds Act (NUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are

appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence described by NUPMIFA. In accordance with NUPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation, and (7) the Foundation's investment policies.

Funds with Deficiencies. From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or NUPMIFA requires the Foundation to retain as a fund of perpetual duration. In accordance with generally accepted accounting principles, deficiencies of this nature that are reported in unrestricted net assets were \$59,870 as of June 30, 2012. These deficiencies resulted from unfavorable market fluctuations that occurred after the investment of permanently restricted contributions and continued appropriation for certain programs that was deemed prudent by the Executive Committee of the Foundation.

Investment Return Objectives, Risk Parameters, and Strategies. The Foundation has adopted investment spending policies, approved by the Executive Committee, for endowment assets that provide a predictable stream of funding to programs supported by its endowment funds while also attempting to maintain the purchasing power of those endowment assets over the long-term. Accordingly, the investment process seeks to achieve a net total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well diversified asset mix, which includes debt, equity and real estate securities, that is intended to result in a consistent inflation protected rate of return that has sufficient liquidity to make an annual distribution of 5%, while growing the funds if possible. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to not expose the fund to unacceptable levels of risk.

Spending Policy. The Foundation has a policy of appropriating for distribution each year 5% of its endowment fund's average fair value of the prior 3 years through June 30th of the preceding fiscal year in which the distribution is planned. In scenarios where the fair value of the endowment funds have fallen below the permanently restricted balances or if undistributed prior period earnings appear insufficient, the Foundation may, at its discretion set a lower payout rate which appears in line with the current yield from investment and general economic conditions. In establishing this policy, the Foundation considered the long-term expected return on its investment assets, the nature and duration of the individual endowment funds, and the possible effects of inflation. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets as well as to provide additional real growth through new gifts and investment return.

The Foundation leased a car from Arnies' Ford Mercury where one of their board members is an employee. Total payments for the year ended June 30, 2012, were \$6,314.

The Foundation purchased Business and Property Insurance from Northeast Nebraska Insurance, during the year ended June 30, 2012, for \$3,613. One of the board members for the Foundation is an employee of this business.

Board members and employees may pledge amounts to the Foundation for various projects and campaigns for support. At June 30, 2012, the outstanding pledge balances was \$89,306.

NOTE S - SSC COLLEGE CENTER

Wayne State College and Northeast Community College have a partnership to provide access to affordable comprehensive programs for associate, bachelor, and master's degrees in South Sioux City, NE. To facilitate these educational programs, they have constructed a building, which is referred to as the College Center. The College Center is located at 1001 College Way in South Sioux City on 57 acres donated by the South Sioux City Community Development Agency. It has a total of 39,000 sq. ft. on two floors. The building cost an estimated \$8.7 million. A grand opening was held on April 20, 2011.

To supplement the state and federal funding, a private fund raising campaign was conducted and approximately \$1.4 million was secured for the project. The project also received an approximate \$500,000 award from the federal government.

The Foundation's contribution revenue for the fiscal year for the College Center included \$7,000 of outright gifts and no new pledges. Pledges receivable at June 30, 2012, included in the temporarily restricted balance, amounted to \$276,450 with a net present value of \$267,146.

NOTE T - PRIOR PERIOD ADJUSTMENT

The amounts on the June 30, 2011, financial statements have been restated to include the amounts for accrued vacation and sick pay. This caused an increase in prior year payables and decrease in unrestricted net assets of \$28,116, leaving a final balance in the unrestricted net assets account of \$2,115,112.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Fiscal Year Ended June 30, 2012

1. Basis of Presentation and Summary of Significant Accounting

This schedule includes the Federal awards activity of the Nebraska State College System (NSCS) and is presented on the accrual basis of accounting. Expenditures are recognized following the cost principles contained in OMB Circular A-21, *Cost Principles for Education Institutions*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, the schedule presents only a selected portion of the operations of NSCS, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the NSCS.

2. Subrecipients

The NSCS did not provide Federal awards to subrecipients.

3. Major Programs

Major programs were determined in accordance with OMB Circular A-133. The Student Financial Aid Cluster was considered the major program for the NSCS.

4. Federal Student Loan Program

The NSCS administers the Perkins Loan Program for which the Federal government imposes continuing compliance requirements (other than repayment of the loan). In accordance with OMB Circular A-133, expenditures for the Perkins Loan Program includes the balance of loans from previous years of \$2,609,924, plus the value of new loans made during the fiscal year, plus any interest subsidy, cash, or administrative allowance received. The Perkins Loan balance for the NSCS for the fiscal year ended June 30, 2012, was \$2,616,164.

NEBRASKA STATE COLLEGE SYSTEM
(A COMPONENT UNIT OF THE STATE OF NEBRASKA)
**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees of the Nebraska State College System
Lincoln, Nebraska:

We have audited the financial statements of the business-type activities and the discretely presented component units of the Nebraska State College System (NSCS) (a component unit of the State of Nebraska) as of and for the year ended June 30, 2012, which collectively comprise the Nebraska State College System's basic financial statements and have issued our report thereon dated December 21, 2012. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Nebraska State College Foundations, Revenue and Refunding Bond Funds, and Facilities Corporation, as described in our report on the Nebraska State College System's financial statements. The financial statements of these entities were not audited in accordance with *Government Auditing Standards* and accordingly this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with these entities.

Internal Control Over Financial Reporting

Management of the Nebraska State College System is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Nebraska State College System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of NSCS's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the NSCS's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the NSCS's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We also noted certain matters that we reported to management of the NSCS in a separate letter dated December 21, 2012.

This report is intended solely for the information and use of management, Board of Trustees of the Nebraska State College System, others within the NSCS, and the appropriate Federal and regulatory agencies. However, this report is a matter of public record and its distribution is not limited.

NEBRASKA STATE COLLEGE SYSTEM
(A COMPONENT UNIT OF THE STATE OF NEBRASKA)
**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Trustees of the Nebraska State College System
Lincoln, Nebraska:

Compliance

We have audited the Nebraska State College System's (NSCS) (a component unit of the State of Nebraska) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on the NSCS's major Federal program for the year ended June 30, 2012. The NSCS's major Federal program is identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major Federal program is the responsibility of the NSCS's management. Our responsibility is to express an opinion on the NSCS's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the NSCS's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the NSCS's compliance with those requirements.

In our opinion the NSCS complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major Federal program for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the NSCS is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered the

NSCS's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the NSCS's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses, as defined above.

We noted certain matters that we reported to management of the NSCS in a separate letter dated December 21, 2012.

This report is intended solely for the information and use of management, Board of Trustees of the Nebraska State College System, others within the NSCS, Federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
