NEBRASKA DAIRY INDUSTRY DEVELOPMENT BOARD

BACKGROUND

The Dairy Industry Development Act (Act), which is found at Neb. Rev. Stat. §§ 2-3948 to 2-3963 (Reissue 2012, Cum. Supp. 2020), was enacted by the Legislature in 1992 in anticipation of the national checkoff related to advertising and promotion provisions of the Nebraska-Western Iowa Federal Milk Order (Order 65) being rescinded. The United States Department of Agriculture (USDA), Agricultural Marketing Service, published 7 CFR Part 1065 in the Federal Register on December 23, 1998. This rule terminated the advertising and promotion provisions of Order 65 with respect to milk marketed on or after December 1, 1998. The Nebraska Dairy Industry Development Board (Board) initially worked with the Nebraska Department of Agriculture to plan for a smooth transition of the checkoff program from the national level to the State level. January 1999 was the first month that the Board received collection fees.

Neb. Rev. Stat. § 2-3958(1) (Reissue 2012) requires “a mandatory assessment of ten cents per hundredweight on all milk produced in the State of Nebraska for commercial use.” The funds are used, pursuant to Neb. Rev. Stat. § 2-3950 (Reissue 2012), for financing programs to do the following:

[M]aintain and expand domestic sales of milk and dairy products, develop new products and new markets, improve methods and practices relating to marketing or processing of milk and dairy products, and inform and educate consumers of sound nutritional principles including the role of milk in a balanced diet.

During the audit period, the Board contracted with the Midwest Dairy Association and the Southwest Dairy Museum, Inc., to assist in accomplishing the goals of the Act. The Board also contracted with the Nebraska Department of Agriculture for the administrative functions of collecting, disbursing, and auditing, as the Board has no employees to perform those duties.

The following Vision, Mission and Principles, and Goals were taken from the Board’s Budget Request (for the 2021-2023 Biennium), which is available online at <https://budget.nebraska.gov/>, under the “Agency Budget Requests” section.

VISION

“Bring Dairy to Life!”

MISSION AND PRINCIPLES

“Give Consumers an Excellent Dairy Experience!”

GOALS

1. Dairy Experience:

Building relationships with partners to reach consumers is a top priority, and by building connections through partnerships, shared values and exciting dairy experiences, we can offer credible information to our consumers. Knowing that consumers make choices based on taste, nutrition, budget and personal value systems and beliefs, we can relate to our customers because we are dairy consumers, too! Whether it’s a family enjoying ice cream together on a hot summer day or a mother making a hearty cheese soup on a cold winter night, dairy enriches our lives because memories are made around the dinner table. We want to bring dairy to life with openness, transparency, honesty and a willingness to listen first and then share the farm to table journey with today’s modern consumers!

NEBRASKA DAIRY INDUSTRY DEVELOPMENT BOARD

GOALS (Concluded)

2. Research and Innovation:

Midwest Dairy proudly supports the Midwest Dairy Foods Research Center and land grant institutions, investing in research that drives innovation, improves product quality and safety in order to meet the needs of today's consumer. We collaborate with industry partners to identify current challenges within dairy food processing, bring real-life solutions to the industry and provide innovative research in improving food safety, processing methods and dairy manufacturing efficiencies. By staying in tune with consumer demands and focusing on emerging food and beverage trends, we support our industry partners who bring new and innovative products and opportunities to the dairy aisle.

3. Unified Marketing Plan:

A portion of Midwest Dairy's strategic plan will continue to be in line with the Dairy Management Inc. (DMI) Unified Marketing Plan. Under the guidance of dairy farmer leadership, we will continue to contribute a minimum of one-fourth of all checkoff funds received toward national initiatives supported by DMI. This will ensure maximum collaboration among checkoff programs across the country and allow Midwest Dairy to strategically prioritize the projects that are advantageous and appropriate to the region's dairy producers. The highly successful Fuel Up to Play 60 program is one example of a program that will continue to be implemented with proven success by interacting and connecting with future dairy consumers.

INDEPENDENT AUDITOR'S REPORT

Nebraska Dairy Industry Development Board
Lincoln, Nebraska

Report on the Audit of the Financial Statements

Opinion

We have audited the cash-basis financial statements of the governmental activities and the major fund of the Nebraska Dairy Industry Development Board (Board), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, as listed in the Table of Contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective cash-basis financial position of the governmental activities and the major fund of the Board, as of June 30, 2022, and the respective changes in cash-basis financial position for the year then ended in accordance with the cash basis of accounting described in Note 1.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements of the Board are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and the major fund of the State that is attributable to the transactions of the Board. They do not purport to, and do not, present fairly the financial position of the State of Nebraska as of June 30, 2022, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting as described in Note 1. This includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 10, 2022, on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Board's internal control over financial reporting and compliance.

NEBRASKA DAIRY INDUSTRY DEVELOPMENT BOARD

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2022

1. **Summary of Significant Accounting Policies**

A. Basis of Presentation

The accompanying basic financial statements of the Nebraska Dairy Industry Development Board (Board) have been prepared in conformity with the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than generally accepted accounting principles (GAAP).

The basic financial statements have been prepared primarily from accounts maintained by the State Accounting Administrator of the Department of Administrative Services (DAS).

B. Reporting Entity

The Board is a State agency established under and governed by the laws of the State of Nebraska. As such, the Board is exempt from State and Federal income taxes. The financial statements include all funds of the Board. The Board has also considered all potential component units for which it is financially accountable and other organizations that are fiscally dependent on the Board or whose relationship with the Board is so significant that exclusion would be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the Board to impose its will on that organization, or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Board. The Board is also considered financially accountable if an organization is fiscally dependent on and there is potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Board regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.

These financial statements present the Board. No component units were identified. The Board is part of the primary government for the State of Nebraska's reporting entity.

C. Government-Wide and Fund Financial Statements

Agency-Wide Financial Statements. The Statement of Net Position – Cash Basis and Statement of Activities – Cash Basis display information about the activities of the Board and are in the format of government-wide statements, as required by Governmental Accounting Standards Board (GASB) Statement Number 34. These statements include all the financial activities of the Board. The Board reports governmental activities only. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Net Position – Cash Basis presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported as unrestricted net position. Unrestricted resources often have constraints on resources that are imposed by management, but those constraints can be removed or modified.

The Statement of Activities – Cash Basis demonstrates the degree to which the direct disbursements of a given function or segment is offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. General receipts include all other receipts properly not included as program receipts. The Board reported the following general receipts: First Purchasers Assessment and Miscellaneous.

NEBRASKA DAIRY INDUSTRY DEVELOPMENT BOARD

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

1. **Summary of Significant Accounting Policies** (Continued)

Fund Financial Statements. The fund financial statements provide information about the Board's fund. GAAP requires separate statements by fund category – Governmental, Proprietary, and Fiduciary. The Board uses only the Governmental Fund category. The emphasis of fund financial statements is on the major Governmental Fund.

The Board reports the following major Governmental Fund type:

Special Revenue Fund. This is the Board's primary operating fund. It accounts for financial resources received and used for specific purposes.

The Board designates fund balances as follows:

Assigned. The fund balance has been constrained by the Board for a specific purpose, but is neither restricted nor committed.

D. Measurement Focus, Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus and basis of accounting. The agency-wide financial statements were reported using the cash basis of accounting. As such, the measurement focus includes only those assets and fund balances arising from cash transactions on the Statement of Net Position – Cash Basis. Receipts are recognized when received, and disbursements are recognized when paid from the fund of the Board. This differs from governmental GAAP, which requires agency-wide financial statements to be reported using the economic resources measurement focus and the accrual basis of accounting. Under this measurement focus and basis of accounting, receipts are recorded when earned, and disbursements are recorded when a liability is incurred, regardless of the timing of related cash flows.

The governmental fund financial statements were also reported on the cash receipt and disbursement basis of accounting. As such, the same measurement focus and basis of accounting were used as described above. This differs from governmental GAAP, which requires governmental fund financial statements to be reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this measurement focus and basis of accounting, receipts are recognized as soon as they are both measurable and available. Receipts and related receivables are considered to be available and, thus, susceptible to accrual when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Disbursements are usually recorded when a liability is incurred, as under accrual accounting. However, disbursements related to compensated absences and claims and judgments are recorded only when payment is due.

E. Cash and Cash Equivalents

In addition to bank accounts and petty cash, this classification includes all short-term investments, such as certificates of deposit, repurchase agreements, and U.S. treasury bills. These short-term investments may have original maturities (remaining time to maturity at acquisition) greater than three months; however, cash is available and is considered cash and cash equivalents for reporting purposes. These investments are stated at cost, which at June 30, 2022, approximates market. Banks pledge collateral, as required by law, to guarantee State funds held in time and demand deposits.

NEBRASKA DAIRY INDUSTRY DEVELOPMENT BOARD

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

1. **Summary of Significant Accounting Policies** (Concluded)

Cash and cash equivalents are under the control of the State Treasurer or other administrative bodies, as determined by law. All cash deposited with the State Treasurer is initially maintained in a pooled cash account. On a daily basis, the State Treasurer invests cash not needed for current operations with the State's Investment Council, which maintains an operating investment pool for such investments. Interest earned on these investments is allocated to funds based on their percentage of the investment pool.

F. Budgetary Process

The State's biennial budget cycle ends on June 30 of the odd-numbered years. By September 15, prior to a biennium, the Board and all other State agencies must submit their budget requests for the biennium beginning the following July 1. The requests are submitted on forms that show estimated funding requirements by programs, sub-programs, and activities. The Executive Branch reviews the requests, establishes priorities, and balances the budget within the estimated resources available during the upcoming biennium.

The Governor's budget bill is submitted to the Legislature in January. The Legislature considers revisions to the bill and presents the appropriations bill to the Governor for signature. The Governor may: a) approve the appropriations bill in its entirety; b) veto the bill; or c) line item veto certain sections of the bill. Any vetoed bill or line item can be overridden by a three-fifths vote of the Legislature.

The approved appropriations will generally set spending limits for a particular program within the agency. Within the agency or program, the Legislature may provide funding from one to five budgetary fund types. Thus, the control is by fund type, within a program, within an agency. As a result, the Budgetary Comparison Schedule only reports total disbursements by program.

Appropriations are usually made for each year of the biennium, with unexpended balances being reappropriated at the end of the first year of the biennium. For most appropriations, balances lapse at the end of the biennium.

All State budgetary expenditures for the Nebraska Dairy Industry Development Fund are made pursuant to the appropriations, which may be amended by the Legislature, upon approval by the Governor. State agencies may reallocate the appropriations between major objects of expenditure accounts, except that the Legislature's approval is required to exceed the personal service limitations contained in the appropriations bill. Increases in total appropriations must also be approved by the Legislature as a deficit appropriations bill.

Receipts are not budgeted.

2. **Deposits and Investments**

Investment of all available cash is made by the State Investment Officer on a daily basis, based on total bank balances. These funds are held in the State of Nebraska Operating Investment Pool (OIP), an internal investment pool. Additional information on the deposits and investments portfolio, including investment policies, risks, and types of investments, can be found in the State of Nebraska's Annual Comprehensive Financial Report (ACFR). Information on the OIP may be obtained by writing to DAS, 1526 K Street, Suite 240, Lincoln, NE 68508, or by calling 402-471-6500.

NEBRASKA DAIRY INDUSTRY DEVELOPMENT BOARD

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

3. Contingencies and Commitments

Risk Management. The Board is exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets, errors or omissions, injuries to employees, and natural disasters. The Board, as part of the primary government for the State, participates in the State's risk management program. The Nebraska Department of Administrative Services is responsible for maintaining the insurance and self-insurance programs for the State. The State generally self-insures for general liability, employee health care, employee indemnification, and workers' compensation. The State has chosen to purchase insurance for:

- A. Motor vehicle liability, which includes \$4,700,000 with a self-insured retention of \$300,000 (coverage includes hot pursuit). There is an additional one-time corridor retention of \$300,000. Insurance is also purchased, with various limits and deductibles, for physical damage and uninsured and underinsured motorists. State agencies have the option to purchase coverage for physical damage to vehicles. There is a \$1,000 deductible for this coverage.
- B. Life insurance for eligible employees.
- C. Crime coverage, with a limit of \$10,975,000 for each loss and a \$25,000 self-insured retention per incident subject to specific conditions, limits, and exclusions.
- D. Real and personal property on a blanket basis for losses up to \$200,700,000, with a self-insured retention of \$300,000 per loss occurrence. Newly acquired properties are covered up to \$5 million for 30 days and \$1 million for 90 days, if the property has not been reported. If not reported after 90 days, the property is not covered. The perils of flood, earthquake, and acts of terrorism have various coverage, sub-limits, and self-insurance. State agencies have the option to purchase building contents and inland marine coverage.

Details of the various insurance coverages are available from the Nebraska Department of Administrative Services – Risk Management Division.

No settlements exceeded commercial insurance coverage in any of the past three fiscal years. Workers' compensation is funded in the Workers' Compensation Internal Service Fund through assessments on each agency based on total agency payroll and past experience. Tort claims, theft of, damage to, or destruction of assets, errors or omissions, and natural disasters would be funded through the State General Fund or by individual agency assessments, as directed by the Legislature, unless covered by purchased insurance. No amounts for estimated claims have been reported in the Board's financial statements. Health care insurance is funded in the Insurance Trust Funds through a combination of employee and State contributions.

Litigation. The potential amount of liability involved in litigation pending against the Board, if any, could not be determined at this time. However, it is the Board's opinion that final settlement of those matters should not have an adverse effect on the Board's ability to administer current programs. Any judgment against the Board would have to be processed through the State Claims Board and be approved by the Legislature.

4. Operating, Economic Development, and Assistance Disbursements

Neb. Rev. Stat. § 2-3950 (Reissue 2012) designates the Board as the agency of the State of Nebraska responsible for carrying out the purposes of the Dairy Industry Development Act (Act). As made clear by § 2-3950, the purpose of the Act is to do the following:

[M]aintain and expand domestic sales of milk and dairy products, develop new products and new markets, improve methods and practices relating to marketing or processing of milk and dairy products, and inform and educate consumers of sound nutritional principles including the role of milk in a balanced diet.

NEBRASKA DAIRY INDUSTRY DEVELOPMENT BOARD

NOTES TO THE FINANCIAL STATEMENTS

(Concluded)

4. **Operating, Economic Development, and Assistance Disbursements** (Concluded)

Additionally, Neb. Rev. Stat. § 2-3961 (Reissue 2012) authorizes the Board to sponsor joint projects with any private or public organization that is a “qualified program” – defined by Neb. Rev. Stat. § 2-3949(8) (Reissue 2012) as “any State or regional dairy product promotion, research, or nutrition education program which is certified pursuant to 7 CFR 1150.153, as amended” – to meet the objectives of the Act. The Board has entered into cooperative agreements with Midwest Dairy Association and Southwest Dairy Museum, Inc., non-profit organizations, to carry out the purpose of the Act. For the fiscal year ended June 30, 2022, the Board paid Midwest Dairy Association \$1,305,118 and Southwest Dairy Museum, Inc., \$96,895 pursuant to those agreements.

5. **Related Party**

The Board contracts with the Midwest Dairy Association (Association), a related organization through similar control and management, to implement and administer programs intended to contribute to the betterment of Nebraska’s dairy farmers and the State’s dairy industry. Such programs include, but are not limited to, nutrition affairs, consumer confidence, strategic initiatives, “Fuel Up to Play 60,” industry relations and communications, and dairy product research. The Association also provides the Board with administrative and reporting services. Payments under the contract amounted to \$1,305,118 for the period ended June 30, 2022.

The Association’s Corporate Board is the governing body of the Association and had 35 voting members. One member of the Board, along with the wife of another Board member, served on the Association’s Corporate Board. The Nebraska Division Board of the Association provides input to the Association’s Corporate Board. Five members of the Board, along with the wife of another Board member, also served on the Nebraska Division Board of the Association.

NEBRASKA AUDITOR OF PUBLIC ACCOUNTS

Charlie Janssen
State Auditor

Charlie.Janssen@nebraska.gov

NEBRASKA DAIRY INDUSTRY DEVELOPMENT BOARD
INDEPENDENT AUDITOR'S REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

INDEPENDENT AUDITOR'S REPORT

Nebraska Dairy Industry Development Board
Lincoln, Nebraska

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Nebraska Dairy Industry Development Board (Board), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, and have issued our report thereon dated August 10, 2022. The report was modified to emphasize that the financial statements present only the fund of the Board. The report notes the financial statements were prepared on the basis of cash receipts and disbursements.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Board's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, not to provide an opinion on the effectiveness of the Board's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

August 10, 2022

Matt Schochenmaier, CPA
Audit Manager
